WASHINGTON, June 9, 1868.

SENATE.

Mr. DOOLILLE presented the memorial of Mrs. Eliza Potter, of South Carolina, setting forth that she had expended some $40,000 for the support of Union prisoners during the rebellion, that she had always been devoted to the Union; that she had been reduced to poverty by raids on both sides during the war, and asking to be remunerated for the amount actually expended for such purposes. Referred to the Committee on Claims.

Mr. MORGAN presented the petition of the Louisville Board of Trade, concurred in by the New York Chamber of Commerce, praying for a reduction of the tax on whisky to fifty cents. Referred to Committee on Finance.

On motion of Mr. HENDERSON the Senate took up the bill for the relief of certain contractors of iron-clads; to meet objections, he moved to amend by inserting a provision that the sum appropriated shall be in full discharge of all claims on the vessels on which allowances were made by the Auditing Board; after considerable discussion the bill was laid aside, at the expiration of the morning hour, and the special order, the Omnibus bill so-called, was taken up. The question was on the amendment to admit Alabama.

Mr. WILLEY made an argument in favor of the amendment.

After some remarks by Mr. SAULBURY. Mr. Wilson's amendment to include Alabama was agreed to—22 to 21.

Mr. MORTON offered his amendment noticed yesterday.

Mr. HOWARD moved to amend section second by making it read as follows: "That if the time fixed for the meeting of the Legislature in either of said States by the Constitution thereof, shall have passed or shall have so nearly arrived before the passage of this act, that there shall not be time for the Legislature to assemble at the time fixed by the Constitution of said State, such Legislature shall commence twenty days from the time this act takes effect, unless the Governor shall convene the same." He explained the object to be to take from the Governor the discretion of calling the Legislature together or not, as he sees fit, and require it to be the law to assemble. The amendment was adopted.

Mr. HOWARD moved to amend the third section to read that the first section of this act shall take effect as to each State, except Georgia, when such State shall by its legislation duly ratify article fourteen of the amendments of the Constitution of the United States, and as to the State of Georgia, when it shall in addition give assent to said State to the fundamental condition hereinbefore imposed on the same, he explained that the section requires an issue of a proclamation by the President announcing the compliance of these States with the necessary condition, before the State can be admitted in Congress. He had no idea the President would ever issue any such proclamation and therefore, he proposed to dispense with it entirely and to declare these States *post facto* representation in Congress on their adoption of the 14th, amendment.

Mr. EDMUNDS said the point had been considered by the Committee, and they had decided to let the usual course be taken of allowing the responsibility to remain with the President of announcing the result. Mr. Edmunds dissented from Mr. Howard's opinion that the President would withhold that proclamation. He thought the President would run no such risk, when he was so directed by law to issue it.

Mr. HOWARD replied that the President believed their whole system of reconstruction unconstitutional and void, and intended to effectuate his own plan. The Senator mistook the character of the President if he supposed there is anything he dare not attempt to do.

Mr. FRELINGHUYSEN suggested the purport of both Senators could be obtained by leaving in the section a clause making it the duty of the President to issue the proclamation within ten days after the necessary official notification of the ratification. Both Senators assented and the amendment was modified and adopted.

Mr. SHERMAN moved to amend, by striking out the clause imposing on Georgia further fundamental conditions by declaring null and void by her General Assembly, certain provisions in her Constitution, relating to debts contracted prior to June 1st, 1865.

Some debate ensued, during which Mr. MORTON pronounced the provisions unconstitutional and dishonorable. When, without action, the Senate went into extra session, and afterwards adjourned.

HOUSE OF REPRESENTATIVES.

The House assembled at eleven o'clock, that being the hour fixed for the official reception of the Chinese Embassy. The attendance of members was very large, and the galleries were crowded with spectators. The members of the Senate did not respond to the invitation to be present.

The Speaker announced the appointment of Mr. BROOKS on the Committee of Reception, instead of Mr. WOOD, who is detained at home on account of illness.

The Clerk proceeded with reading the Journal, and, in about five minutes, the reading ceased, by direction of the Speaker.

The Sergeant-at-Arms announced the appearance at the principal door of the Committee of the House, with the Chinese Embassy. The Committee and Embassy advanced up the main aisle; Mr. SCHENCK escorting Mr. Burlingame; Mr. BANKS, escorting Chityan, and Mr. BROOKS escorting Sumtajen; the other members of the Embassy followed, and all took a position facing the Speaker, in the aisle.

The SPEAKER, by a stroke of his gavel, indicated that the members of the House who had been on their feet, would resume their seats.

Mr. SCHENCK presented the Embassy to the House, and Speaker Colfax delivered an address of welcome.

Mr. BURLINGAME responded—

Mr. Speaker—On behalf of my associates and myself, I thank you for this warm and unusual reception. It transcends all personal compliment; it is the greeting of one great people by another; it is the Occident and the Orient, for the first time in the electric contact whose touch makes the whole world akin. It is the meeting of two civilizations which have hitherto revolved in separate spheres. It is a mighty revolution. Let us hope, sir, it will go on without those mighty convulsions which are too apt to mark great changes in human affairs! Let us hope that it will be achieved without the shedding of one drop of human blood! We are for peace. We come not with the beat of the drum, nor with martial tread—though representing the latent power of eighty millions of men, we are the heralds of good will. We seek for China that equality without which nations and men are degraded. We seek, not only the good of China, but your good and also the good of all mankind. We do this in no sentimental sense. We would be practical as the toiling millions we represent. We invite you to a broader trade, a more intimate examination of the structure of Chinese civilization. We invite you to a better appreciation of the manners of that people, of their temperance, patience, habits of scholarship, their competitive examinations, their high culture of tea and silk, and we shall ask from you the modern science which has taken its great development within the memory of man, and the holy doctrines of our Christian faith.

It is for the west to say whether it was sincere, when it continued for a long time, to invite China to more intimate relations with it. It is for the west to say whether it is for a fair and open policy, or for one founded on prejudice, and on that assumption of superiority which is justified neither by physical ability or moral elevation. The people of the United States have responded through their Executive, and this House through their Speaker, with a unanimity and nobility of sentiment which makes me proud of the civilization in which I was reared, and glad to see it passed in review by the scholars and statesmen of China. I trust the people of the United States will abide by that sentiment, and I do hope it is but an earnest of that spirit which will meet us on the shores of the distant seas and on the banks of the beautiful rivers which you, sir, have named.

Thanking the House for this reception and you, sir, for the eloquent and able manner in which you have expressed its pleasure, we await such further action as the proprieties of the occasion may require. (Applause and clapping of hands by members on the floor and the spectators in the galleries.)

The individual presentation of members of the House to members of the Embassy then took place. It was gone through with in a good humored and informal style, some of the younger Celestials seeming to enjoy the scene very much, and occasionally occupying themselves in giving autographs to members. All the presentations having taken place, the members of the Embassy took seats in chairs arranged in the area, and the House went on with its business, including a vote by yeas and nays.

Finally, at 12 o'clock, the signal of departure was given, and the Embassy, escorted by the Committee, left the hall, the members of the House paying the respect of standing while it retired.

REGULAR BUSINESS.

Mr. BEAMAN, from the Committee on Reconstruction, reported a bill to erect two additional States out of the Territory of the State of Texas. Ordered to be printed and recommitted.

Mr. PAINE, from the same Committee, reported back the bill to provide for the inauguration of the State officers in Arkansas, North Carolina, Louisiana, Georgia and Alabama, and for the meeting of the Legislatures of these States.

Mr. BROOKS made a brief protest against the whole system of legislation, of which the bill is a part, and then the bill was passed by a party vote, yeas 113, nays 31, as follows:

Be it enacted, &c., That the Legislatures of each of the States of Arkansas, North Carolina, South Carolina, Georgia, Louisiana and Alabama, elected under the Constitution thereof, framed and adopted in pursuance of the provisions of "an act for the more efficient government of the rebel States," passed March 21st, 1867, and the acts supplementary thereto, be and hereby is authorized to meet on such days as may have been fixed in such constitution, or by the proclamation of any officer authorized to convene such legislature, by the convention which framed such constitution, and if no day shall have been fixed as aforesaid, or if the day fixed for the meeting of the legislature of either of said States shall have passed, or shall have so nearly arrived before the passage of this act, that, in the opinion of the Governor elect, there might not be time for the legislature to assemble on the day fixed, such legislature may be convened within thirty days after the passage of this act by the Governor of said State.

Section two provides that whenever either of the said States shall be admitted to representation in Congress, the executive and judicial officers of such State duly elected and qualified under the Constitution thereof may be inaugurated without delay, and the government of such State shall thereupon be transferred to the civil authorities thereof.

Section third provides that it shall be the duty of all civil and military officers exercising authority in either of the States to afford all practical aid and protection to officers in such State in carrying out the provisions of this act, and any such officer who shall wilfully withhold such aid and protection, or shall wilfully prevent, hinder or delay the meeting of either of the said Legislatures, or the inauguration of any of the said officers, or of any other civil or military officer, under either of said authorities, shall be guilty of a felony, and upon conviction thereof, before any Federal or State Court of criminal jurisdiction, shall be punished by imprisonment not to exceed ten years or by fine not to exceed ten thousand dollars.

Mr. BUTLER, from the Committee on Appropriations, reported back the Senate amendment to the House bill for the relief of the Navajo Indians, and moved the bill and amendment be tabled, which prevailed.

The SPEAKER presented several Executive communications, including one from the Secretary of War, recommending an appropriation of $100,000 for a bridge to connect the Rock Island arsenal with the city of Rock Islaud.

Mr. FARNSWORTH, from the Committee on Postoffices and Post Roads, reported a bill granting the Illinois and St. Louis Bridge Company full power and authority to construct a bridge across the Mississippi river opposite the city of St. Louis, the span to be at least five hundred feet clear between peers.

After considerable discussion, and the adoption of an amendment, offered by Mr. WASHBURNE, of Illinois, providing that the tolls now fixed by the Legislatures of Illinois and Missouri should not be increased, the bill was passed.

Mr. FARNSWORTH also reported a bill chartering the New Orleans & Mobile Railroad Co., and authorizing it to construct bridges over navigable waters, on its route.

At the suggestion of Mr. WASHBURNE, of Illinois, the bill went over till to-morrow.

Mr. HILL from same committee, reported back the bill to provide a Foreign American line of mail and emigrant passenger steamships between New York and one or more European ports, authorizing the Post Master General to contract with the Commercial Navigation Company of New York.

The morning hour expired and the bill went over till to-morrow.

Mr. SCHENCK introduced a joint resolution directing the Secretary of War to sell damaged or unserviceable arms, ordnance or ordnance stores. Referred to the Committee on Military Affairs.

Mr. BLAINE offered a resolution, which was adopted, that the Committee on Foreign Affairs be instructed to inquire whether the action of the Mexican Government in establishing ports at Matamoras and other points on the Rio Grande is not in violation of treaty stipulations and unfriendly to the commercial rights of this country.

Mr. GRISWOLD presented a petition, signed by sixty officers of leading railroad companies, in favor of extending subsidy to the Union Pacific Railroad, Eastern Division.

Mr. STEVENS, of New Hampshire, introduced a joint resolution to provide for the appointment of an Auditor of Accounts of Congress. Referred to Committee on Accounts.

On motion of Mr. CULLOM, the Senate amendments to the House joint resolution authorizing the Secretary of War to furnish supplies to exploring expeditions, were concurred in.

Mr. VAN HORN, of Missouri, from the Committee on Indian Affairs, reported a bill for the consolidation of Indian tribes and to organize a system of government in the Indian Territory. Recommitted.

Mr. COOK, from the Committee on Roads and Canals, made a report on the resolution referred to it in relation to the right of Congress to exercise control over railroads, and also presented a minority report on behalf of Mr. Kerr. Ordered to be printed and recommitted.

Mr. COKE, from the same Committee, reported a bill to authorize the building of a railroad from Washington to connect with the Northern Central Railroad. Ordered printed and recommitted.

The House then went into Committee of the Whole on the Tax bill, commencing at section 75th.

Mr. WOODWARD moved to strike out section eighty-six, which provides for special taxes, arguing that it was a most odious form of taxation.

Mr. SCHENCK argued against the motion, and stated that the revenue last year from that source amounted to over $18,000,000, and that by a re-adjustment of the special taxes and extension of them, and by including in part of the special tax a tax on sales above a certain amount, it was probable that under that head would be included one of the largest sources of revenue during the coming year.

The motion was rejected.

Mr. HOLMAN offered an amendment looking to the taxation of United States bonds, but on a point of order, raised by Mr. Garfield, it was ruled out of order.

The paragraph taxing retail dealers, in section eighty-seven, was, at the instance of the Committee of Ways and Means, amended so as to read rerail dealers, every person whose business it is to sell or offer for sale, any goods or merchandise of foreign or domestic production, not including wines, distilled spirits, malt liquors, petroleum, tobacco, snuff or cigars, and whose annual sales exceed $5,000 and do not exceed $25,000, shall be regarded as a retail dealer and shall pay $20.

Mr. BLAIR, of Michigan, moved to strike out the paragraph, and delivered himself opposed to all taxes on the industry of the country which were not absolutely essential, and he did not believe these special taxes were.

Mr. SCHENCK opposed the motion, and argued that this tax was not a tax on manufacturers or labor, but on commercial transactions.

Mr. MILLER enquired as to the amount estimated to be collected from retail dealers.

Mr. SCHENCK supposed it would be as high as last year.

Mr. Blair's motion was rejected.

Mr. BLAINE moved to reduce the license from $20 to $10.

Mr. SCHENCK opposed the amendment. He said the Committee on Ways and Means had been engaged, not alone in reducing the taxes but in readjusting and equalizing them, which was a matter of just as much importance. What was the tax proposed on retail dealers? It is not on productive industry, but on commercial enterprise engaged in the exchange of commodities. $20 on $25,000 was an average of less than one-tenth one per cent. He desired the House particularly to recollect that the Committee reported a bill with reference to the amounts already appropriated and to be appropriated.

Mr. BLAINE defended his amendment, arguing in favor of the retention of the present tax on retails, ten dollars, in preference to that proposed, The amendment was rejected—42 to 54.

Mr. BARNES moved to amend the paragraph by making the tax ten dollars and one-tenth of one per cent. on excess over $5,000.

Mr. SHENCK opposed the amendment, not objecting to it, however, on the ground of principle, but on the ground of convenience.

Mr. INGERSOLL moved to amend by reducing the tax from two to one dollar for every additional one thousand dollars in excess of twenty-five thousand.

Mr. SCHENCK opposed the amendment and asserted that the Committee had in view in preparing the bill a readjustment of taxation and had thought it but fair to bring the Commercial interest up to the standard of taxation imposed on producing interest. If any distinction were made it should be in favor of the latter class. After further discussion by Messrs. Blain, of Michigan, Mullens and others the amendment was rejected.

Mr. ALLISON moved to exempt breadstuffs from those products on which dealers are to be taxed. It was also suggested to include clothing.

Mr. ALLISON objected to that saying that a man could get along with old clothing, but must have bread.

Mr. SCHENCK replied to the argument as to exempt breadstuffs and reminded that the tax was on the dealer, on the capital used in his trade, and it is not to be supposed that provision dealers were actuated only by benevolent purposes.

The amendment offered by Mr. Allison was rejected, and the Committee proceeded to the next paragraph relating to bankers.

Mr. BARNES moved to amend by striking out the paragraph. He regarded money as essential to a community as salt or water, and therefore it should not be taxed. Cheap money was a necessity to a community, and he hoped to see the time when all obstacles to free banking would be withdrawn.

Mr. SCHENCK deemed the proposition a very broad one. It was the banker-that is, the man that was doing business in money that the Committee wanted to tax.

Mr. McCARLY opposed the amendment and gave his views in regard to banks and banking as a subject with which he was familiar.

The amendment was rejected.

Mr. WOODWARD moved to amend the proviso exempting Saving banks by striking out the words "having no capital stock." It appeared to him if there was to be any distinction it should be in favor of those banks which had capital in their depositories.

Mr. ALLISON opposed the amendment which was rejected.

Mr. EGGLESTON moved to strike out the proviso exempting Saving banks. Rejected.

Mr. HOLMAN moved to amend by increasing the tax on bankers with a capital not exceeding $50,000 from $100 to $300, which was rejected.

The Committee proceeded to the next paragraph, which relates to brokers.

Mr. WALKER moved an amendment to the paragraph by grading the tax on brokers as those whose business does not exceed $40,000, shall pay $50; $80,000, $100, and over that amount $150.

Mr. SCHENCK opposed the amendment, which was adopted.

Mr. INGERSOLL inquired whether the paragraph would include persons who, while in other business, as farmers, merchants, lawyers, &c., did a real estate brokerage business?

Mr. SCHENCK replied it would be the fault of the assessor if it did not.

Mr. INGERSGLL suggested that the paragraph should be amended so as to include them. He proposed instead of using the words "every person whose business it is to negotiate the sale or purchase of stock, &c." the words should be "every person wno regulates, &c." Agreed to. The next paragraph, relating to commercial brokers, was annexed, on motion of Mr. SCHENCK, by adding the following words: "Or sell or offer for sale, as agent of any merchant, commission house, or manufactory, goods or merchandise, by sample, &c."

The next paragraph relating to Foreign commercial brokers was amended, on motion of Mr. SCHENCK, by making the first sentence read "Foreign commercial brokers whose annual sales do not exceed one million dollars shall pay a special tax of $50,000, and when exceeding one million dollars shall pay an additional tax of five dollars for every $1,000 of sales in excess of a million."

The paragraph relating to Custom House brokers was, on motion of Mr. Schenck, amended by making the tax $20 instead of $10.

The paragraph relating to insurance agents was, on motion of Mr. SLACKWETHER, amended by exempting those whose commissions do not exceed $500.

The paragraph relating to foreign insurance agents was, on motion of Mr. SLACKWETHER, amended by increasing the tax from $50 to $100.

No amendments were made to the paragraph relating to auctioneers, real estate agents, produce brokers and pawn brokers. The paragraph relating to claims agents and patent agents was, on motion of Mr. McClurg, amended to make the first sentence read: "Claim agents and patent agents whose annual receipts from fees do not exceed $1,000, shall pay $10; if exceeding $1,000, $20; if exceeding $2,000, $30." No amendments were made except as to verbiage in the paragraph relating to patent right dealers, intelligence office keepers, express carriers, pedlars, lottery managers, dealers in lottery tickets and proprietors of gift enterprises.

EVENING SESSION.—The consideration of the tax bill was resumed in Committee, section 87, imposing special tax, being under discussion. The paragraph relative to miners was amended somewhat, while several other amendments were rejected and finally struck out. Several amendments to the paragraph relating to conveyances were amended by exempting persons whose gross annual receipts as such shall not exceed $500.

THE INDIANS.

Indians Violating Treaties—Vigorous Measures Advised—Sheridan Arming Settlers—The Recent Taeaty With Osage Indians, &c.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, June 9.—The *Republican's* Leavenworth special says: Col. Leavenworth, agent for the Kiowas, Comanches and Arrapahoe Indians, arrived here last evening from Fort Cohl, having been out with his tribes several months. Col. Leavenworth has heretofore been a strong friend of these Indians, defending them against all charges of wrong, and blaming the whites for all acts of hostility that have been committed, but now he says these tribes have violated their treaties and obligations, and he will advise withholding their annuities, and the prosecution of most vigorous measures against them. He further states they are constantly committing depredation which render it impossible for settlers to remain in their vicinity with any safety. It is said that strong recommendations have been forwarded from Leavenworth to abolish the Indian Bureau, and place the management of Indian Affairs in the hands of the military authorities.

The *Democrat's* Topeka (Kansas) special says: The band of Cheyennes that a few days since made a raid on the Kaw Reservation, on Friday, after a little skirmish with the Kaws, in which nobody was hurt, on their passage through the settlements, caused a great deal of alarm to settlers, but they did not harm the whites except killing a few cattle and hogs for food. Gen. Sheridan has sent 1,500 stand of arms and ammunition to the frontier to organize and arm the settlers for protection.

The *Democrat* learns from a responsible party that the recent treaty with the Osage Indians by which some eight millions of acres of land were ceded to the Leavenworth, Lawrence and Galveston Railroad Company for twenty-five cents per acre, meets with great disfavor in Southern Kansas. Other Companies desired to purchase the land, but the Commissioner refused the propositions.

Gen. Blair, representing the Missouri, Fort Scott and Santa Fe Railroad Company, which starts southwest from Sedalia, in this State, and runs the entire length of these lands, offered two millions of dollars for these lands, and in addition agreed to give every sixteenth section to the State for school purposes, and provide 160 acres free of cost to every half-breed who might desire to remain, and to secure to every settler his land at one dollar and a quarter per acre.

The Commissioner would, however, entertain no proposition on the subject. Gen. Blair's proposition and the Commissioner's reply will be published. It is claimed that the Government, the Indians, the people of Kansas and the settlers on these lands have been defrauded in the interest of a single railroad company, and that lands enough to build three railroads have been given to one.

—Abundant crops, with the exception of fruit, are promised throughout Maryland. All the eastern shore papers agree that the peach crop will be a failure. The yield of wheat promises to be abundant. Young fruit trees around Baltimore have suffered slightly within a few days from the ravages of locusts.

—The steamer Nevada from New York for Havana and Vera Cruz has been totally wrecked off Cape Hateras. All on board were saved except one seaman. The survivors have arrived at Norfolk. The vessel was valued at $400,000, and the cargo at as much more. Both fully insured.

Opening of British North America, Russia and France--Affairs in Germany.

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, June 9—In the house of Commons this evening, Sir Harry Venrey, made some enquiries of the Government, concerning the measures for opening the territory of British North America for settlement.

Mr. Adderly, under Secretary, for the Colonial Department, replied that the early colonization of lands from Superior to the Pacific Coast was desirable, but so long as negotiations of settlement with the Hudson Bay Company, were pending no steps could be taken by the Government in that direction.

FRANCE AND RUSSIA.

PARIS, May 9.—Baron Stockelberg the new Russian Minister, presented his credentials, and had a formal reception at Court, yesterday. In his remarks he hoped for a continuance of the friendly relations between France and Russia, on the basis of natural interest. Napoleon made a Pacific reply; he reciprocated the hope expressed by the Baron, and thought the appointment of an envoy so popular in France, was a pledge of amity.

GERMANY.

BERLIN, June 9.—The North German Parliament has voted appropriations for expenditures of the fiscal year. A bill has been introduced to release a loan, the proceeds of which will be applied to the improvement of the federal navy.

Homicide Trials at Worcester, Mass.

[By Telegraph to the Pittsburgh Gazette.]

WORCESTER, MASS., June 8.—The Supreme Judicial Court convened a special session to-day for the trial of murder cases. McGrath, who killed McCarty, retracted his former plea and plead guilty of murder in the second degree, and was sentenced to the State prison for life with one day's solitary confinement. The trial of James Shepard, for the murder of his wife, was commenced, and the trial of Silas and Charles James, for the murder of Joseph G. Clark, will follow. The case of Josephine Lafiam and David Dore, for the murder of Charles Lafiam, husband of Josephine, will not be held at this term. The unusual occurrence of so many murder trials in this quiet locality at once, attracts a great deal of attention.

THE COURTS.

District Court—Judge Hampton.

In the case of Wm. French, Sr., vs. the City of Pittsburgh, heretofore reported, the jury returned a verdict for plaintiff in the snm of $4,108 34.

In the case of the Pittsburgh Insurance Company vs. Wm. F. Richardson, the jury was withdrawn and the case continued for the period of one year, or until the case of Norton vs. McCauley, an action for the recovery of the value of a boat owned by plaintiff, now pending in New Orleans, shall have been concluded.

Literary Excursionists—The University and Wilkinsburg.

It has been pretty extensively whispered of late that our venerable friend, Mr. Jas. Kelly, of Wilkinsburg, has taken it into his mind to do a good thing for the Western University. The matter has assumed so definite a shape that yesterday afternoon a party consisting of the faculty, trustees and various friends of the institution, proceeded, on Mr. Kelly's invitation, in a car specially assigned them by the Pennsylvania Central Railroad Company, to Edgewood, to view the grounds a choice of which he had proposed to devote to the uses of the University. The afternoon proved a fine one, and the stroll over the rolling lands the visitors were called to view, was enlivened by many a piece of pleasantry that proved how stimulating was the air of that splendid region and how quickening its scenes of rural beauty to gentlemen of culture like theirs.

Mr. Kelly's views were found to be liberal in every regard. He is not disposed to dictate a policy to the institution he would befriend. He evidently desires to do that with his ample means which shall most further the cause of sound learning, and wants only to determine what form it is most expedient his liberality shall take. If he puts into exercise the shrewd business tact which has marked his career thus far, we shall not hesitate to endorse his judgment in advance, nor shall we fear that the University will be the loser.

Mr. Kelly's example is a suggestive one. We trust that there are many of our citizens who need no broader hint. Let us hear from other quarters, until it becomes an assured fact that the University has been in good faith and in good earnest adopted by the community in which, for so long a time, she has been patiently pursuing her career of usefulness.

DOUBTING.

"I will not ask to press that cheek,"
Without a guarantee
That Nature spread the pearl and red
Which there I always see;
Those lustrous lips I will not touch,
Unless you promptly say
That their bright hue is fast and true,
And will not wash away.

Those brilliant eyes may owe their charm
To belladonna's use,
Complexion tints, I've heard dark hints,
Are changed by walnut juice;
And if I ask the dearest girl,
For whom alone I live,
For one long tress to kiss and bless,
It mayn't be *hers* to give.

The pencilled brow, the raven lash,
Are open to a doubt,
And some mistrust, but they're unjust,
The shape I rave about;
So in this dubious state of things,
And as the weather's warm,
I will not seek to press that cheek,
Or ask to clasp that form.

EPHEMERIS.

—Philadelphia has a Tobacco Board of Trade.

—Green corn is a drug in the New Orleans market.

—*La Belle Helene* made her debut in Boston on Monday.

—Street cars are run by tread-mill power in Houston, Texas.

—The wheat crop is doing very finely in Southwestern Georgia.

—Searching for gold is at present a Chester county amusement.

—Wendell Phillips is called "Snarleyow" by the Chicago *Tribune*.

—The most completely ruined man in England is Lord Hastings.

—Mrs. H. B. Stowe is about to establish a school for mulatto children at Aiken, Ga.

—Havana tobacco for cigars is being extensively cultivated in Mississippi this year.

—Grace Greenwood has moved to Washington where she will reside for a year or two.

—A new 250 barrel well was struck on the Woods farm last Friday, says the Titusville *Herald*.

—New Haven is the only city of importance in the North that did not keep Decoration day.

—The Elgin, Ill., Watch Company are going to start a huge branch manufactory in California.

—Cigarettes for ladies after desert in Paris are as common as oysters before soup at a New York table.

—The tax of one cent per box on matches netted the Government a million and a half dollars last year.

—Sun light is so rare an article in London that photographers find it cheaper to use the electric light in their business.

—One of the most elegant mansions on Beacon street, Boston, is to be fitted up as a ladies' club house and restaurant.

—General Joe Hooker and Mrs. Hooker, are at the Brevoort House New York. They are both suffering from want of health.

—The Chickerings are about to put up an elegant music-hall in New York, which will throw Steinway Hall quite into the shade.

—Fernesque is a new word coined by an [illegible] critic to assist him in describing [illegible]ny Fern's new book, "Folly as it flies."

—The Philadelphia *Age* has Asa Packer [illegible]r President. The chances of the Hon. [illegible]s are not brilliant—certainly not rose-cut.

—Fifty tons of rhubarb are sold daily in Boston, and it retails at two cents per pound, which amounts to over $2,000 per day.

—Bouquets are worn immensely large in New York. Pointed nosegays a foot in diameter and a foot in height are very fashionable.

—"The finest poem of the current decade" is what most of the critics say of George Eliot's new poem, "The Spanish Gypsy."

—The Mayor of Titusville fined a party five dollars the other day for indulging in a free fight, and then lent him the money to pay the fine with.

—A young couple were divorced in Chicago last week, who had been married five years and yet are only twenty-one and twenty years old respectively.

—St. Leger Grenfel, the man who escaped not very long ago from the Dry Tortugas in a small boat, is now enjoying the pleasures of Havana and freedom.

—Gough has promised to retire forever from the lecturing field this season. What then are we to do for bad grammar, buffoonery and superlative eloquence?.

—The *Chicago Times* hopes that Mr. Chase's vote and influence will be used to aid Mr. Pendleton. The *Times* is a fine example of hopefulness under dificulties.

—Plain white French china with a handsome monogram in the centre of each piece is considered the acme of agony in ultra fashionable New York dinner sevices.

—The freight charges on petroleum in bulk have been reduced ninety cents per barrel by the Empire line from all points on Oil Creek to New York or Philadelphia.

—York, Maine, was the first city in America. It was founded by Sir Ferdiu Gorges, who rose and fell twenty years before Boston was the home of white men.

—The coast fisheries of our Northern neighbors have been unusually productive this year, and in some localities five times as many have been caught this as last year.

—Most of those Southerners who went off to live in South America have come back poorer than ever, and are profoundly conscious of the foolishness of their own personalities.

—The *National Intelligencer* has discovered that the people yearn for Mr. Chase for President. Mr. Chase also yearns the same way, which of course shows that he is "one of the peop e."

—Robert Heller has taken the benefit of the bankrupt law. His receipts derived from his profession as a magician have been very large, but the green table has swallowed them all up.

—The St. James Hotel in Boston is said to be the most elegantly managed caravansary in the country. Among other novelties a band of music discourses sweet music during the dinner hours.

—A man named Ingolsby has been arrested in New York as one of the Bennehoff robbers. He was working at $3 a day wages, and looks like an honest man, yet the detectives spotted him.

—The grasshoppers have almost entirely disappeared from Texas as suddenly as they came, and the corn and cotton crops are doing finely; but the wheat prospect is anything but flattering.

—A collection of all of Gustave Doré's best pictures will be on exhibition in New York in September. Of course these original drawing s are infinitely more interesting than copies or engravings.

—Excursion tickets are sold for five dollars in Cincinnati for the round trip to Chicago and return. For a sirgle trip one way the fare is $11,50; but competition shows its influence in the excursion form.

—One of the members of the Celestial embassy is writing a book of travels. It is hinted that an enterprising New York publisher is already looking out for competent person to translate it into English.

—Some complaints have been urged against Messrs. Ticknor and Fields, and Mr. Scribner because they had no representatives present to kiss Timothy Titcomb good-bye when he went to Europe.

—Mr. Pendleton has engaged a very efficient body of claquers for the New York Convention, where we may look for even more free fights and rough-and-tumbles than are usual in Democratic Conventions.

—Five thousand one hundred ond twenty dozen pigeons were shipped from Olean station to New York city last week. It is hardly necessary to state that pigeons were plenty in that neighborhood about that time.

—The wheat crop at present seems to be so promising all over the world, that if it can be kept out of the hands of speculators and "corner" makers, we may look with some certainty towards having bread at pleasanter prices soon.

—The Bishop of London, whose diocese includes all of the English Chapels on the coutinent, has ordered that in all of those chapels, the President and Congress of the United Saates shall be prayed for just as the Queen and parliament are.

—A generous man in Hartford, Conn., has sent $100 to Washington to help pay off the National debt. It won't go very far towards the desired end, but if every man should do as much, taxes and prices might be very pleasantly reduced.

—The promised Fenian raid may be a mere *canard*, lighter than air, but there is no doubt about the reality of the scare in the Dominion. A Fenian, if caught there now, would have but little life left in his corpse by the time it reached the gaol.

—The French government looks with longing eyes on Australia, the annual wool-product of which is valued at $250,000,000 per annum. Algeria is said to be as good a country for sheep as any other, and the French are about to try to introduce a few merinos there.

—An abominable story has been going the rounds, which asserts that Boston ladies consume immense quantities of absinthe, and of course the milliner story was hitched on, Statistics however show that but ten gallons of absinthe were consumed in Massachusetts last year.

—Young girls are attempting, and some times succeeding, to commit suicide all over the country, often for the most trivial reasons. They read of similar instances in the newspapers, find it heroic in the girl, and something like fame to be so mentioned in the newspapers, imagine themselves unhappy, and forget that they will not be alive here after they are dead. It is proper that the local papers should mention cases of this kind, but it is not necessary to make sensation items out of them. If the simple facts were related, many a foolish girl would not have her morbid imagination heated up, and many of these fearful crimes might remain uncommitted.

An interesting incident took place at Springfield, Illinois, last week, when a party of emigrants from Indiana arrived in the city. They were on their way to Missouri, but on reaching Springfield they paused and turned aside to visit the tomb of Abraham Lincoln, the Martyr President. Over one hundred men, women and children passed by the last resting place of the great man who had won their love and admiration, in solemn silence and with heads uncovered. The emigrants thus paying tribute to the memory of Mr. Lincoln were of the most intelligent class of artisans and farmers from the Hoosier State, and to those who met them on the way, they stated that they could not pass through Springfield without stopping to visit and pay homage to the memory of the man who had preserved our free institutions, and proclaimed liberty to all throughout the land. Thus it is that the "bone and sinew"—the reliable men of the Republic—do honor to the memory of the nation's second Washington.

The Schutzen-fest is receiving prizes to be contended for, from all parts of this country and from Europe. Congress has been petitioned to allow the contributions from Germany to pass through the Custom House free of duty. The festival will last from June 27th to July 9th, and a grand exhibition of the customs of sharpshooters of every nation and tribe and kindred and people and tongue, from the most remote antiquity down to the present time, may be expected. Every kind of weapon, from the simple sling or the bow and arrow to the Gattling Gun which sweeps away armies, will be seen in the procession.

On Saturday afternoon last, work was suspended indefinitely in the Rensellaer Iron Works, the Albany Iron Works and the Burden Iron Works, in the South part of the city, in consequence of demands made by the operatives for an increase of wages, and which does not meet with the sanction of the proprietors. The "lock" is likely to remain for a long time. It will result injuriously to all parties, but particularly to the poorer class of operatives.—*Troy Whig, June 1st.*

A. T. Stewart, the dry goods king, owns the Metropolitan Hotel and Niblo's Theatre, which together rent for nearly $100,000 per annum; the New York Theatre (formerly Dr. Osgood's Unitarian Church) with the splendid dwellings in the rear, on Lafayette Place. He also purchased the Grand Street Predbyterian Church, and the Amity Street Baptist Church, which latter he has fitted up for his stable. He also owns Depau Row, on Bleecker street, where he once lived.

The Reading Railroad Company on its main line and branches transported during the week ending June 4th, eighty-three thousand two hundred and fifty-three tons of coal.

RIVER NEWS.

Both rivers are falling slowly at this point with seven feet eight inches in the Monongahela, and nine feet in the Allegheny. At Oil City there were five and a half feet and falling, and forty six inches at Tidioute. We had several heavy showers in the forenoon yesterday, but in the afternoon it looked as if the rain was over for the present.

The Bayard from Parkersburg, is the only arrival we have to report. The Grey Eagle, Captain Drennan, is the regular packet for that point to-day.

The Julia No. 2, cleared for Zanesville.

The Maggie Hays, Capt. B. C. Martin, leaves for St. Louis to-day without fail, and passengers and shippers should bear this in mind.

The J. N. McCullough, from Cincinati, is due here this forenoon, and will return as usual to-morrow at noon.

The Galetea arrived at Cincinnati on Monday.

The. R. C. Gray, Captain W. B. Anderson, is announced for Cincinnati and Louisville forthwith.

The St. Louis *Democrat* says: Our paragraph mentioning a Pittsburgh sternwheeler in port which had run four years without making a losing trip, has been widely copied, and a very general desire expressed to learn her name. It is the Kenton, Captain Dunlap.

The Cincinnati *Gazette* of Monday says: The America, Pittsburgh to St. Louis, passed down at a late hour last night, with about three hundred and fifty tons of freight, fifteen cabin and seven deck passengers. Two hundred tons of her freight are for St. Louis, five tons for points on the Missouri river, and the balance for the upper Mississippi. Her officers report that the Galetea (the boat that is claimed to make twenty miles "per hour up stream) passed them at Steubenville, and that the America passed her afterward on Saturday morning, since which time the Galetea had not been seen. Either the Galetea passed the America during Saturday night, and passed Cincinnati the same night (neither of which hypothesises are probable,) or the speed claimed for the former boat by the Pittsburgh papers is exaggerated. To-day will tell the truth. One of the pilots of the America is Henry Devine, and we believe the other is McDonough.

The New Orleans *Picayune* says: The old ex-Confederate gunboat Selma, which vessel made a most gallant fight in Mobile Bay, is now being fitted out for the Texas cattle trade. Captain John McLean, well known in this city, is an old machinist and sailor, is to command her. The Selma was formerly the Mobile packet Florida, of the Gedds Line, and is now owned by a company in this city.

The Champion, sunk at Chenault's Reach, on Friday, was insured for $15,000, in the following Cincinnati offices: National Merchant's and Manufacturers', and Farmers', $2,500 each, and in the Ohio Valley, Germania, Lafayette, Queen City and Crescent, for $1,500 each.

A St. Louis telegram, under date of Sunday, says: Arrived—Marble City, from Memphis; Key City and Sucker State, from St. Paul; Columbian, from Omaha; Cora, from Fort Benton. Departed—Mahawk barges, for New Orleans. River stationary, or falling slightly. Weather clear and cool. The Cora came from Fort Benton 3,200 miles, in 12 days. Has been out 74 days.

The St. Louis *Dispatch*, of Saturday, says: The New Orleans trade is a very unsettled state from the fact that the boats and barges are running dead against one another. Setamboats appear determined not to allow any further discrimination in favor of barges, hence the war in rates. Shipments to New Orleans are being made at about ten cents per hundred, a price that neither boats or barges can live at. The trouble does not end there. The Atlantic line and outside boats, under the name of "compromise line" is likely to fall through from the fact that outsiders are compelled to lay over some four or five weeks to wait their turn, which at the going prices and other expenses, they do not relish. The probabilities are, that there will be a general "letting loose," when every boat will go it on their own hook, and his Satanic majesty take the hindmost. As much as such a state of affairs is to be regretted, we see no help for it, and next week will probably inaugurate a spirit of rivalry and opposition unequalled in the carrying trade, for a number of years.

GOLD closed in New York yesterday at 139¾.

THE SENATE, by the close vote of 22 to 21, adopts the Wilson amendment to the Omnibus bill, including Alabama in its provisions. This, however, does not ensure its final passage in that shape by the Senate. Nor is the House likely to concur in it. The amendment was actively opposed by Mr. Trumbull and others, whose votes may yet be necessary to protect the bill from the President's veto.

THE FLOWERY LAND was officially and faithfully represented on the floor of Congress yesterday by Ambassador BURLINGAME and his almond-eyed colleagues. The celestial chief of the embassy, owing to the unfortunate prejudices of his early Yankee education, could not compete with his associated mandarians in the longitude or plaiting of his queue, but his speech was fully up to the most ornate style in vogue at the country of Pekin, or even on the floor of our Congress.

THE monthly statement of the public debt shows an increase, during May, of ten millions of dollars, owing chiefly to the heavy payments made for interest. The total, nevertheless, as now reported, is about nine and a half millions less than on the 1st of March, although the intervening period has not been one of large imports or of any marked activity in the general business of the country. The honest and efficient collection of the whisky tax would have ensured a still greater steady reduction in the total of debt.

WOOLLEY, the very emi nent but stubborn Democrat, whom the House has held for a few days in its tender keeping, on the suspicion that he is privy to certain discreditable facts connected with the President's acquittal, has finally submitted to the wholesome coercion, and is ready to tell all he knows. He says he was only a member of the Whisky Ring, and had no concern in any other dirty business whatever. Some other awkward points he slides over by a misty reference to the convivialities of a dinner party. The enquiry is to be pursued by the Committee, who retain the President's friend in custody.

WE are friendly to the cause of temperance, but we must deprecate the personal attack made last evening at the Allegheny Temperance League meeting on gentlemen whom we have ever regarded as faithful public servants, actuated in their official and private deeds by honor and honesty. If the good friends of temperance would entirely ignore politics they would succeed just as well, if not better, in the accomplishment of the laudable ends for which they so zealously labor. The County Commissioners are above reproach, and the League should bear in mind that they are sworn to do their duty to all men alike. If laws are odious they are not to be held responsible for executing and meeting their requirements. The proper channel for reform is through the Legislature, but no good can result from an unjust onslaught on worthy and conscientious county officials.

THE course pursued by Gen. BUCHANAN, commanding the Louisiana Military District, in postponing the organization of the State government recently elected, until a late period of the autumn, has brought him into collision at once with the Registration Board upon which the duty of summoning the officers elect was devolved by the Constitutional Convention. This Board lost no time in following the General's order by warning the people of its illegality, for which they were put under arrest, and will be tried by a Military Commission, "unless Congress legislates for the admission of the State." It is to be observed that the instructions to the General emanate from the White House, and that Mr. JOHNSON will prevent that legislation if his veto has any virtue. His policy is purely one of obstruction, and, since his acquittal, he is encouraged to play it more boldly than ever. If the restoration of the State can be accomplished under the pending bill, notwithstanding his opposition, he will be stripped of much of his present power for mischief.

ROLLINS AND THE WHISKY RING.

The resignation of Commissioner ROLLINS, of the Internal Revenue Bureau, will be attributed in some quarters to the action of the House in refusing to approve the proposition which was embodied in the new tax bill, for a thorough reorganization of that service. It has been well known for months that the policy which Mr. ROLLINS would have enforced upon his subordinates has not received a hearty support from the President, and that the latter has frequently intimated his intention to remove the Commissioner. The public rumors which have so freely connected Mr. JOHNSON with the operations of the powerful combination known at the Capital as the "whisky ring," have never, to the slightest extent, included the Commissioner in their discreditable imputations. His official record has been accepted as entirely clear, both by Congressmen, the press and the public, and none of the responsibility for the shameful failures to enforce existing legislation had, at any time, or by any of the opponents of the system, been laid personally at his door. An abortive attempt, a year since, to transfer the burthen of public odium for these failures from a higher quarter upon his shoulders, recoiled instantly upon its instigators, and since then, as well as before, amid all the rank corruptions which mark more than one department of the Federal government, Mr. ROLLINS' name has stood almost alone, untarnished by the faintest cloud of suspicion. The necessity, springing from whatever cause, which now drives this faithful officer from the public service is to be deplored, and, if it could have been avoided through the proper coöperation of Congress, is to be regarded rather as a public calamity.

The proposition of Mr. SCHENCK, to which we have alluded, embodied the very strong conviction of many members that no honest and effective collection of the internal revenue could be ensured until the *personnel* of the Bureau were radically and entirely revised, and that no efforts of Congress to this end stand any chance of success so long as the power of appointment and removal remains within the arbitrary pleasure of the Executive. It was, therefore, contemplated to erect the Bureau into an independent department, reserving to Congress the power to retain its head and to this head the appointing power to be exclusively committed. This, it was naturally supposed, would cut off the subterranean pipe which, according to universal public belief, connects the worm of this Whisky-ring with (not to strain the metaphor too much) the still at the White House, and would restore, under the energetic and faithful control of incorruptible officers, an honest and successful collection of the large revenue justly due to the Treasury. But the idea has been found impracticable. A very grave doubt exists as to the power of the House to interfere so directly with the prerogative of appointment vested by the Constitution in the Executive head of the nation, and this doubt had conclusive force with many influential representives. Those provisions of the new bill were accordingly dispensed with, members considering it better that the country should submit to a continuance of the flagrant corruptions which the failure of impeachment leaves still in power, rather than to trespass upon a clear constitutional right of the President. This is a confession that the recent action of the Senate leaves the treasury still at the mercy of the rapacious gang who, with official connivance in a high quarter are enriching themselves with almost incredible success, in defiance of the law, but the House is clear of all responsibility for the shame. It will, however, aim at the same object, the disorganization of the vile coalition which has been found too powerful to be broken up hitherto, by some other means more clearly within the admitted powers of Congress.

We have no doubt that the Commissioner's resignation now is due to this action of the House, on that question of appointments. Mr. ROLLINS is not personally disposed to protract the hopeless controversy with a higher power, which has thus far rendered his best efforts to protect the public interests nugatory. He retires, leaving the President at liberty to replace him with some more supple and accommodating supporter of his own peculiar policy. This retirement is, nevertheless, to be highly regretted, since the official integrity, which Mr. ROLLINS has faithfully illustrated, was already quite too rare at Washington, and will be still more rare hereafter.

THE COUNTY EXECUTIVE COMMITTEE.

The Union Republican Executive Committee for Allegheny county, to serve during the ensuing year, is announced in another column. It will be observed that it embraces many of the leading and representative members of the party, a fact which goes to show how much care was taken in its formation by the gentlemen having the matter in charge. This auxiliary to the party has too frequently been used to glorify individuals, giving them honor and prominence and exacting no corresponding labor from them, but, in the present instance, those accepting the position are expected to do earnest, zealous work, and to at once enter into the drudgery of the campaign with a will and determination to accomplish great results through their personal efforts and endeavors. Let no laggard accept the place on the Committee, nor should any member believe that the appointment is made simply to do him honor. He is expected to work from first to last. The campaign into which we have entered requires unusual industry, tact and energy on the part of the County Executive Committee, and from our personal knowledge of a majority of the members constituting it, we can safely promise that its work will be well and faithfully discharged. The selection of Colonel RUSSELL ERRETT as Chairman was a wise and judicious one, for no other gentleman in the county is better acquainted with the manner of successfully conducting a campaign, none more energetic, persevering and industrious, or more deeply impressed with the importance of the battles to be fought in October and November.

GREECE FOR THE GREEKS.

It is announced that the Greek government has virtually recognized Crete as a part of its dominions, by receiving a deputation from its people. It does not appear that this act has assumed a diplomatic character of such marked formality as to clothe it with the dignified proportions of a *casus belli*, justifying Turkey, which at present claims sovereignty over the island, in hostilities against the intervening power, but such, nevertheless, is likely to be the case. The Greeks have constantly asserted their sympathies with the Islanders, who have the same language, the same religion and profess the same nationality, and the government at Athens has manifested this sympathy decidedly and in every way, except by direct aid in arms. During the struggle between the Turks and the insurgent Cretans, the Greeks have barely preserved a paper neutrality, effectively aiding the Islanders by contributions of men, money and provisions, and even embarking the refugees from the Moslem rule under her own flag and upon her own public ships. It has been understood for months that her more direct and public intervention in the affairs of Crete has only been restrained by the influence of the great powers of Western Europe, which foresaw, in such an act, new and dangerous complications of that Eastern question which concerns rather the independent existence of Turkey than the independence of the revolted province. If the crisis, so long postponed, shall at last have been precipitated by this recognition of the Cretan deputations, its solution will be speedy and decisive, in the interests of the peace which it hazards, or Russia and the Western powers will become entangled in a grand European war.

WHO IS HE?

It was stated in debate, on Monday, on the floor of the House, that proof existed to show that a Judge in a Federal Court had united with his District Attorney to levy black-mail upon some sixty persons arraigned for offenses against the revenue laws, the Judge and Attorney letting them off easy and dividing the profits. When Gen. SCHENCK added, to this statement, an expression of his hope that the Judge might yet be impeached, he exhibited a degree of abiding confidence in the Senate which is really refreshing. Certainly, impeach that Judge, by all means, and see what will come of it. His name will speedily transpire, for Gen. SCHENCK would not make this extraordinary statement without due authority, and the corruption which he has charged is too flagrant in its nature to pass without an investigation. When this unknown Judge shall be exposed and arraigned for trial, it may help his case if he pleads that all Judges are but human, and that a still higher functionary has perverted justice for a consideration. One man is covetous and another is ambitious, but the demand of each is met in his own way and the transaction is consummated, the corruptions differing only in kind, not in degree.

IF SENATOR MORTON'S proposition, to engraft upon the pending Omnibus bill the provisional features of the Spalding bill in relation to Alabama, be adopted by the Senate, many of the difficulties now apparent to Republican Senators will be obviated. It is doubtful if the bill, in its present shape, can command the support of two-thirds of the Senate, and there is the consequent danger that the final restoration of the five States, may be postponed in accordance with the President's wish. But the establishment of these provisional governments until the conditions imposed by Congress shall all have been fulfilled, will immediately relieve the people of these States from military control, committing their affairs to the charge of their own elected officers, and ensuring a speedy compliance with the conditions now imposed.

There is an apprenension in some quarters that the public expectations, in the early settlement of the reconstruction question in the South, are to meet with a sharp disappointment by the failure of the pending bills to secure the necessary majorities in each House. But these fears are not wholly justified. The omnibus bill will hang in the Senate and between the two Houses until next week, when the Arkansas Senators will come in, and Colorado will follow as soon as the necessary bill can go through the forms of legislation. Even without the aid of these new Senators, it is believed that the present bills will become law, but, with the four Senators from the States specified, their ultimate enactment is certain.

A NEW YORK journal prints a "private" letter from Chief Justice CHASE, in which, disclaiming as usual any personal ambition, he expresses the gratification which he will feel in the success of the present attempt to commit the Democracy to the principle of universal suffrage. He also reiterates his devotion to his old creed of equal rights. The letter adds nothing to his strength as a candidate for the Democratic nomination, being little more than a repetition of the opinions heretofore known to be held by him on that particular question. His reference, however, to that principle which is "established in eight, and to be established in all of the Southern Constitutions," is a significient admonition to the Democracy, of the partizan benefits to accrue to them by accepting it and endorsing it at New York. The Chief Justice is beginning to be understood as an original and consistent Democrat, on all points excepting that of the suffrage, and upon this the party is in a fair way of coming up to his ground. Black suffrage has been a monster most formidable to them, but current events, and the developments of three weeks more, will lubricate it so well that it will slip down the Democratic gullet with scarcely a gulp.

—An Athens, Greece, letter states that the Greek Government has received the Cretan deputations, thus virtually recognizing Crete as part of the Greek nation, which will lead to war between Turkey and Greece, and may be followed by a general European war.

REVISION OF THE TARIFF.

We have received from our Representative, Gen. MOORHEAD, a copy of the new Tarriff Bill which he presented to the Committee of Ways and Means, action upon which was postponed by the Committee until next session.

Gen. MOORHEAD also writes us as follows:

I know of no more important duty that members of Congress could perform, even during the heated term, than to remain here and pass this bill, or one of similar import. Its passage would relieve the suffering and depressed condition of affairs in the manufacturing districts, would give employment to honest labor, would tend to abridge our exports and imports, thereby enabling us to retain our gold and silver at home, and thus hasten the return to specie payments.

I hope however, that before Congress adjourns a bill relieving a few important and depressed interests will be passed.

Washington Topics and Gossip.

Chief Justic Chase will return from Richmond on Saturday. The New York *Herald* prints a private letter from him, in which he says he was not a partisan on either side in the impeachment trial. He says he shall adhere to his old creed of equal rights. "They may denounce and abuse me, and read me out of the party if they choose. I follow my old lights, not the new. What the development of the future may be, I know not. I neither expect or desire to be a candidate for office again. It would, however, gratify me exceedingly if the Democratic party would take grounds which would assure the party against all attempts to subvert the principle of universal suffrage established in eight, and to be established in all the soushern Constitutions; then I think the future of the great cause for which I have labored so long would be secure, and I should not regret my absence from political labors."

Reverdy Johnson is being warmly urged for the English Mission, and it is possible that he might be confirmed.

In the case of Samuel Cox for the Austrian Mission, the Senate has postponed action.

The impeachment managers have got possession of a card on which was written by Assistant Secretary Cooper, on May 13th, and sent to the President: "Henderson secured. Craig and Lacey have seen him." Mr. Craig is the Collector of Internal Revenue at St. Joseph, Missouri, and Mr. Lacey is in the whisky business in New York.

It is now quite probable that the tax bill can be finished and sent to the President before the first of July.

The row between the newly elected and retiring city officials will give rise to several lawsuits.

Mr. Wylie, of the Richings Troupe, died rather suddenly last evening of brain disease.

The Last Fast Hoe is here trying to get his patent renewed. He will no doubt succeed.

Major C. G. Megrue, Col. L. A. Harris, and Benjamin Robinson, whisky inspectors, have arrived from Cincinnati, in answer to a summons from the Board of Managers. The Committee, it is stated, have possession of certain telegrams which passed between Collector Harris and Woolley in regard to raising money to assist the latter in accomplishing his object in coming here.

BOARD OF CONTROL.

Special Meeting—The Seventh Ward Secedes—An Independent District.

A special meeting of the Board of School Controllers, of Allegheny County, was held in the Common Council Chamber, on Thursday evening the 9th inst. The meeting was called to order, and opened with prayer, by the President, Rev. J. B. Clark.

Members present. Messrs. Barr, Brown, Jno. K.., Barker, Beckert, Dunlap, Francis, Groward, Kollock, Loomis, Lea, Lockhart, Mussler, Tremble, Swift, White, Young, Alex'r., and Rev. J. B. Clark.

The Secretary, at the request of the Chairman, stated the object of the meeting, as follows: A member of the School Board of the Seventh ward had served upon him an official order from the Court of Quarter Sessions of Allegheny county, setting forth that the Seventh ward, Aliegheny and Reserve township had been constituted an independent School district, and he deemed it advisable that a meeting be held to have an expression relative to the matter.

Mr. Alex. Young wished to know by what authority the Courts interfered in the matter, and was of the opinion that there was no law authorizing it.

The President said he supposed the "Court knew herself," and as the order had been made, he supposed there was law for it.

Mr. Kollock referred to the school law, and read a section which provides for the establishment of independent districts.

A member said that the law did not apply in this case; that a portion of Reserve township had been consolidated with the city by act of Assembly and was a part of it as much as any other ward in the city, and he did not think that the Courts had a right to undo what the Legislature had done. He thought it would be advisable to employ an attorney and have the matter investigated.

A gentleman asked that the order be read.

Mr. Frances read the order which set forth that upon the petition of twenty citizens of the district, presented at March sessions, 1868, a commission had been appointed to investigate and inquire into the propriety of creating the Seventh ward and Reserve township into an independent district, and that the said commission having reported favorably thereto, and there being no exceptions filed to the report it was confirmed and the order made.

It appears from the statements of the Board that the matter was "snaked" through, as none of the officers or members had received notice of the proceedings or known that such a petition had been presented.

Mr. Brown thought the thanks of the Board were due to the Court for relieving them of the Seventh ward.

A member thought if one district was allowed to secede others would also claim the privilege.

Mr. Brown submitted the following resolution:

Resolved, That the Seventh ward of this city in connection with Reserve township, having been consolidated as an independent School District, by the Court of Quarter Sessions. Therefore, it is the sense of this Board that it is not advisable for our Receiver to receive the school tax of said ward in the name of this Board, and the Secretary is authorized to draw a red line over the school tax of the Seventh ward.

The resolution was adopted, after which the meeting adjourned.

East Birmingham Council.

The regular monthly meeting of the East Birmingham Borough Council was held last evening at the house of the Walton Hose Company, on Sarah street.

Members present—Messrs. Beck, Feld, Ihmsen, Foell, and Burgess Slocum.

The minutes of three previous meetings were read and approved.

Mr. Ihmsen, of the Market House Committee, reported progress, and asked that the Committee be continued. The request was granted.

Mr. Beck, of the special committee appointed to consult with Mr. Hersh, President of the Passenger Railway Company, in regard to paving the whole of Carson street, reported that the Committee had not yet been able to see Mr. Hersh. Committee continued.

Mr. Beck, of the Fire Committee, reported that the Walton Hose Company have withdrawn their petition for fire hats, belts, &c. The report was accepted.

Mr. Beck, of the Committee of Conference, with reference to the paving of Harmony street, reported that the Committee had advertised for proposals for the work. The report was received and the Committee continued.

Mr. Beck stated that the President of the Walton Hose Company was present, asking that the roof of the Company's building be repaired and made water tight. He moved that the Fire Committee be instructed to make the necessary repairs.

Mr. Ihmsen moved as an amendment, that the contractor be required to make the repairs.

The amendment was accepted, and the motion adopted.

Mr. Beck presented the report of the Finance Committee. The Committee have examined the accounts of the Collector and late Treasurer, which exhibit as follows:

Amount paid out	$6,904 33
Receipts	6,858 07
Balance due the borough	$ 46 26
Duplicates in Collector's hands	$10,674 98
Extra collections	135 20
Total	$10,840 18
Commissioners receipts, &c	10,412 65
Balance due the borough	$ 397 55

Following is the estimate of receipts and expenditures for the current year:

RECEIPTS.

Borough duplicates	$ 4,025 54
" Special tax	8,045 83
Licenses and fines	1,090 00
Total	$13,071 37

EXPENDITURES.

Bonds maturing	$28,000
Other expenses	13,500
Grading and paving	12,050—$51,950 00

The Committee recommended that the Finance Committee be instructed to issue coupon bonds to the amount of $40,000. Report received and accepted.

An ordinance authorizing the borough of Birmingham to borrow $40,000 on coupon bonds was read by the clerk, and, on motion passed.

The following bills were ordered to be paid:

Post	$26 25
Dispatch	26 25
Commercial	9 25
Republikaner	26 25
Chess, Smith & Co	10 25
Barrett, Street Commissioner,	5 00

On motion of Mr. Beck the constable was instructed to procure a neat table for the use of reporters.

On motion, ordered that a bond be issued in favor of Mr. Reneke for the amount of his bill.

On motion, a warrant was ordered to be drawn in favor of A. S. Radford, contractor, for $200.

Warrants were also ordered in favor of the clerk and constable for $50 each.

Adjourned.

SCIENCE ADVANCES.

As soon as an article purporting to be of utility has been tested, and its merits endorsed by public opinion, unprincipled parties endeavor to replenish their depleted purses by counterfeiting, and substituting a spurious for the genuine article. Some time since, mercury, in the disguise of pills, powders, &c., was given for all diseases of the stomach and liver, while quinine was freely administered for the chills. At length HOSTETTER'S STOMACH BITTERS made its advent, and an entire new system of healing was inaugurated. The beneficial effects of this valuable preparation were at once acknowledged, and mineral poisons suffered to sink into that obscurity to which an enlightened age has consigned them. There have been many spurious Bitters palmed upon the community, which, after trial, have been found perfectly worthless, while HOSTETTER'S has proved a blessing to thousands, who owe to it their restoration to health and strength. For many years we have watched the steady progress of HOSTETTER'S STOMACH BITTERS in public estimation, and its beneficient effects as a cure for all complaints arising from the stomach, of a morbid nature, and we are free to say that it can be relied upon as a certain relief and remedy. Its proprietors have made the above preparation after years of careful study and sifting, and are now reaping the reward claimed by this valuable specific, and which they so richly merit. It is the only prepartion of the kind that is reliable in all cases, and it therefore demands the attention of the afflicted.

ADVICE TO CONSUMPTIVES.

DR. KEYSER says: "You want air, not physic; you want pure air, not medicated air; you want plenty of nutrition, such as plenty of meat and bread will give; physic has no nutriment; gasping for air cannot cure you; monkey capers in a gymnasium cannot cure you; and stimulants cannot cure you. If you want to get well, go in for BEEF AND OUT-DOOR AIR."—*Republic.*

He says further: Don't put off the first symptoms. "A little leak may sink a great ship;" a small sore in the throat, lungs or liver will soon involve the whole body. How often do we see people put off for a year or two what in the beginning could have been remedied for a trifle. The Doctor's advice is, and always has been, attend to the first symptoms of disease. Do not let the constitution become a wreck before you begin to mend; if you do, ten to one there will be no remedy. There is a remedy for every disease if taken in time. A slight sore throat or cough may be removed with comparatively little trouble; but a constitution, sinking and breaking to pieces by allowing these little troubles to accumulate is not so easy. Dr. Keyser's mode of lung sounding is unique, and as thorough as it is unique. There is not a spot or space over the whole surface of the lungs that he does not sound and investigate, and by so doing is enabled to supply the appropriate remedy.

HALL'S

COPPER SCROLL LIGHTNING CONDUCTORS.

WE RESPECTFULLY INVITE PROPERTY OWNERS, BUILDERS, ARCHITECTS and INSURANCE COMPANIES to examine the merits of these conductors before adopting any other. THEY ARE THE CHEAPEST safeguards against the disastrous effects of lightning offered to the public.

They are made from pure Lake Superior Copper, rolled into a scroll or cylinder, giving any required surface, from six (6) to sixty (60) inches, the smaller being EQUAL TO THIRTY (30) and the largest to THREE HUNDRED (300) COMMON IRON RODS.

There are no other conductors manufactured in accordance with science, capable of as large and compact a surface.

They have received the approval of practical and scientific men wherever introduced; will last as long as the building stands, and are always in order.

Though they have been under test since the spring of 1861, and are on thousands of public and private buildings, *no instance of a failure to protect the buildings on which they were placed can be mentioned.* Among the prominent buildings which have them on are the Capitols of Missouri and Minnesota; Crosby's Opera House, Chicago; Pike's Opera House, Cincinnati; U. S. Arsenal, Columbus, Ohio; Cutlery Buildings, Beaver Falls, Pa., &c., &c.

Among those in Pittsburgh who have examined and commended them are—

George Woods, President Western University.
I. C. Pershing, President Female College.
Philotus Dean, Principal Pittsburgh High School and Professor of Natural Sciences.
Otto Wuth, Pro. Practical & Analytical Chemist.

Reliable and active men wanted in every county of the Middle and Eastern States, as permanent Agents, to whom liberal inducements are offered. Call or send for Circulars for further particulars.

600 MILES

OF THE

UNION PACIFIC RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

At the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is on absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more.* The Government permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION, from the stockholders, of which OVER EIGHT MILLION DOLLARS have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

FIRST MORTGAGE BONDS

upon such a property, costing nearly three times their amount, ARE SECURE BEYOND ANY CONTINGENCY.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIUM.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Pittsburgh by

JAMES T. BRADY & Co., corner of Wood and Fourth Streets;

HART, CAUGHEY & Co., corner of Wood and Third Streets;

S. McCLEAN & CO., 75 Fourth Street;

PH. R. MERTZ, corner 5th and Wood Sts.;

ROBINSON BROS., 78 Fourth street;

AND IN NEW YORK

At the Company's Office, No. 20 Nassau Street, and by

JOHN J. CISCO & SON, Bankers, No. 59 Wall Street, and by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices, or by any of the advertised agents.

JOHN J. CISCO, Treasurer,

NEW YORK.

NEW ADVERTISEMENTS.

A GREAT CURE OF ASTHMA.

I feel myself under obligations to you, as well as a duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured. I had been subject to violent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, or relieved at all. I was so bad that I never knew what it was to be free from the disease. I had to sit up in bed every night for weeks and weeks, without any prospect or hope of cure. My condition was such that I felt life a burthen, and when I got an attack I felt in danger of suffocating every moment. So terrible had been my suffering that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, in order to hinder the apparent danger of strangulation. In this condition, on the 13th of October, 1866, having heard of DR. KEYSER'S skill in curing this disease, I called on him, in company with my husband, Joseph Meyers, but I must confess with a great deal of doubt as to effecting a permanent cure. DR. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would get well. I persevered with his medicines for over a year, and am to-day in vigorous health, and totally FREE FROM THE ASTHMA, and its terribly disagreeable attendants. I have had, once in a while, a slight attack of the disease, but I regard my health as entirely re-established, and if I do have any attack, a few doses of the Doctor's medicine immediately relieves it. I cannot feel too thankful for the exemption from a disease which used to cost me whole weeks and months of loss of sleep, besides suffering which none but those who are subject to this disease can fully appreciate or describe.

NANCY MEYERS,
MARY MOUNT JOY, (her mother,)
GEORGIANA FISHER.

Birmingham, Dec. 9, 1867.

The case of Mrs. Meyers, recited above, is one of more than ordinary importance, because of the violence of the attacks, their continued length, and the great prostration of all the vital powers attending the disease. Any one who knew her during the time she was a sufferer from the disease of which she was cured, and will look at her now, the very picture of robust health, cannot but admit that the cure is one of more than ordinary character, inasmuch as we hear of Asthma every day of our lives, being a disease of an incurable nature. Let those who doubt investigate for themselves.

DR. KEYSER'S RESIDENT CONSULTING OFFICE FOR LUNG EXAMINATIONS AND THE TREATMENT OF OBSTINATE CHRONIC DISEASES, No. 120 PENN STREET, from 9 A. M. until 4 P. M.

Deafness, Hard Hearing, Discharges from the Ear, Polypus of the Ear, Catarrh, Ozena, Blind Eyes, Inflamed Eyes, and every species of Sore Eyes and Ears successfully Treated by Dr. Keyser, No. 120 Penn Street.

SIGHT RESTORED.

The case to which we allluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher has been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DR. KEYSER'S treatment for two months, and before she applied to him, through her brother, Simon P. Fisher, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery. We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the fact above stated.

CHRISTIAN FISHER,
SIMON P. FISHER, (brother,)
ANNIE BRADLEY,
Taylor Avenue, Allegheny;
EUGENE McCASKEY,
LOUISA FISHER, (her niece.)

September 18th, 1867.

The case above referred to was entirely cured by medicines to purify the blood, and it is witnessed by scores of persons who have known Miss Fisher, and have a knowledge of her total restoration to health and the recovery of her sight, as the accompanying letter of her brother sets forth:

DR. KEYSER—This is the list of names that I have to your advertisement of the cure of my sister, Christiana Fisher. They were all willing to put their names down, and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

DR. KEYSER'S CONSULTATION ROOMS, No. 120 PENN STREET, corner of EVANS ALLEY. OFFICE HOURS FROM 9 A. M. TO 4 P. M.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of GEORGE FORD, carpenter, of No. 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there I called on a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondence, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by DR. KEYSER was a medicine called LUNG CURE, which I took in connection with the other treatment.

GEORGE FORD.

PITTSBURGH, March 30, 1868.

ANOTHER CURE OF CONSUMPTION.

Statement of John G. Wigham, of Turtle Creek, Allegheny county:

I was discharged from the United States army in January, 1866, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough, and fell away in strength and flesh, and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood, and afterwards to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DR. KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of, and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under DR. KEYSER'S medicines from the first week I commenced to take them, and my general health has improved, and my chest, where it was sunken away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of DR. KEYSER'S treatment and medicines.

JOHN G. WIGHAM, Turtle Creek.

FOR SALE.

A RIVER BOTTOM FARM OF 76 ACRES, 19 miles from the city, in Elizabeth township, Allegheny county, Pa., on the Youghiogheny river, one-half mile from Elrod's Station, on the Connellsville railroad; near churches, schools, stores, &c., in the flourishing villages of Boston and Green Oak. The improvements are a two-story brick house of six rooms, hall and cellar, a good frame bank barn with stabling underneath, and other outbuildings; a well of good standing water at the door, and several standing springs of water on the farm, and an orchard of 700 trees of selected fruits of apples, cherries, pears, peaches, quinces and grapes. This property being located near the line of the railroad, within one hour's ride of the city, makes it very desirable for gardening or a dairy farm; it is also a good and beautiful location for country homes near the city, lying immediately on the river, on the opposite side from the railroad. The West Newton Accommodation and other trains on the railroad afford certain and frequent opportunities of daily communication to and from this city. Will be sold as a whole or in lots of one acre or more, to suit purchasers.

Also, A FARM OF 173 ACRES, situated in St. Clair township, Westmoreland county, Pa., near the line of the Pennsylvania Railroad at Houston Station. The improvements are a two-story frame house, with six rooms and good cellar, a frame bank barn 40 by 60 feet, and other outbuildings. There is on the place a young apple and peach orchard; 120 acres cleared land, divided into fields of convenient size, a large portion of which are well set in clover and timothy; the residue of said tract covered with good timber. It is well watered and underlaid with coal and limestone, and is convenient to churches, schools, stores, mills and blacksmith shops. A real good bargain is offered in this excellent farm; and with it will be sold all the personal property on the premises, consisting of horses, cows, stock cattle, hogs and poultry, harness, gears, wagon, plows, farming implements and household and kitchen furniture. Together will be sold very low and on easy terms, to a responsible purchaser.

Also, a desirable and very fertile Tract of Land of 158 ACRES AND 25 PERCHES, in Elizabeth Tp., Allegheny county, Pa., on the line of the Hempfield railroad, and one and one-half miles from the Connellsville railroad at Suter's Station. On this farm are 40 acres of superior white oak timber, which alone is now worth one-half the price asked for the whole tract. The improvements are a log house, frame barn, good fencing, and an apple orchard of good fruit. It is well watered and underlaid with limestone and flag stone of a superior quality, with stone coal for the use of the farm.

Also, The best FARM in Fairfield township, Westmoreland county, Pa., of 250 ACRES, about six miles south of the Pennsylvania Central Railroad at Bolivar Station. The improvements are two large hewed log dwellings; one of the largest and best frame barns in the township; two apple orchards, in good bearing condition; corn crib, wagon-shed and other outbuildings. The whole farm is under a high state of cultivation; fencing all in first rate order, and the land of the best quality of limestone soil, about 200 acres of which is cleared and the residue of the tract in good timber, such as white oak, rock oak, hickory, walnut and beech. This property will be sold very cheap and on good terms, as the owner wishes to engage in other business. For particulars enquire of

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 9, 1868.

The fluctuations in the gold market were wider to-day than for some time past, with the volume of business increasing. The market opened at 139¼, declined to 139⅜, advanced to 139⅞, and closed weak and dull at 149½. Large sales are made in anticipation of lower rates in July, but the advance in the market (or on the street, as the phrase runs,) is so limited that it is dangerous to sell for cash and borrow the gold.

The government bond market is not very active; quotations are merely sustained because few have bought cheap enough to allow them to sell at a profit, so quotations are sustained only by force of circumstances. The speculators and some of the commercial journals in the interest of the former all predict higher prices, predicated on the easy money market, but the question arises who will buy the bonds now. July dividends are too far ahead yet, and with a lower gold premium, bonds must decline likewise, independent of the disposition of speculators, because money will be scarcer, and bonds can neither be carried so cheaply nor in such large amounts, as the money will be needed in the west to move the products of the soil to the coast.

The stock market is inactive and rather lower; the leading railway shares however are well sustained without any large transactions. Express stocks are improving slightly, and Mining shares remain firmer, and are in better demand.

Money is easier, but business is inactive.

Closing quotations as received by Ph. R. Mertz, were as follows:

Gold, 139¼; 1881 bonds, 116⅝; 1862 5-20s, 112¼; 1864 do, 110¼; 1865 do, 110¼; Consols, 113; 10-40s, 106; 7-30s, 109¼.

Railroads—Cleveland & Pittsburgh, 88½; Fort Wayne, 111; North Western, common 69¼; North Western—preferred, 81¼; New York Central, 134½; Erie, 70⅛; Old Southern, 89½; Ohio & Mississippi, 30¼; Merchants Union Express, 29½; Western Union Telegraph, 38½. Mining Shares—Corydon, 32; Quartz Hill, 120; Quicksilver, 26½.

—Secretary McCullough has given official notice that compound interest notes will be redeemed only at the Treasury of the United States in Washington. They are to be sent at the risk and expense of the sender, and the Treasurer will, on the day of their receipt, return a check on New York for the proper amount. The specie movement at New York is attracting considerable attention, the aggregate shipments in May being nearly sixteen million dollars—the largest total in any one month, excepting May, 1866, in the history of the Government,

The Philadelphia *Ledger* of Monday says: Money continues in great abundance, and the low rate of 4 per cent., with collateral, on call, is general. At New York the rates are quoted even lower than in this city.—Prime commercial paper is in demand at bank at 5 to 6 per cent., generally the latter. Towards the close of last week there was some evidence on the part of speculators to produce an impression of a reaction to higher rates in money, but it resulted in nothing. It is now the almost universal impression that July quarter-day will pass quietly over. And both banks and borrowers are opperating for a raise in stock prices, are at ease and more confident, though the stock market on Friday and Saturday was somewhat unsettled. and irregular.—Outside paper on miscellaneous stock collateral is making at one and two months, but most of the heavy lenders, including the trust and insurance companies, prefer to keep their balances wi hin their immediate cpntrol, even at 4 per cent. on call. In view of the frequent and unexpected turns in the money market they probably act the wiser part in doing so.

—Says the Chicago *Tribune*, of Monday: There has been no change of importance in any phase of financial affairs in this market for more than a month past. Money, as was shown by the monthly bank statement published yesterday, has scarcely ever before been so abundant, and the only wonder is that has, as yet, been the means of originating no speculative movement in products, goods, real estate, or anything else. Merchants' deposit are increasing, and the general tendency is to clear off obligations instead of to borrow more. At this season lumbermen usually want large accommodations, but at present—though the receipts of lumber have been heavier during the past week than at any time before during the season, and lumbermen have laid in large stocks—very few of them want accommodations at the banks, and in the aggregate they are paying off instead of borrowing.

—Closing quotations received by James T. Brady & Co.:

Gold, 139⅜; U. S. 6's, 1881's, 116⅝; 5-20's, 1862, 112⅝; 5-20's, 1864, 110¼; 5-20's, 1865, 110⅝; 10-40's, 106; 5-20's, January and July, '65, 113; 5-20's, January and July, '67 113½; June 7-30's, 109½; July 7-30's, May Comp., 1868, 110-30.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, TUESDAY, June 9, 1868.

The general markets continue very dull, with but little prospect at present of any immediate improvement. Among dealers in flour and grain, there is a general apprehension that a mathrial decline in prices is near at hand, and hence they are not disposed to buy, but on the other hand, are anxious to sell, and this accounts to some extent, for the stagnation which is now prevailing. Within the last thirty days Wheat has declined faom 30 to 40 cts per bushel, and Rye is down from 45 to 50. The City Mills, generally, have reduced the price of flour considerably, but even at the reduction the demand is very light. In other articles there are no changes worthy of special notice.

BUTTER—Is quiet and unchanged; we continue to quote prime to choice Rolls at 20 to 22.

EGGS—Demand fair and market steady but unchanged, at 23 to 24—bulk of the sales appear to be at 23.

HAY—Weighmaster McNully, at the Allegheny Diamond Scales, reports sales of 51 loads of Hay at $15 to $22, and two loads of Straw at $15.

MILL FEED—Middlings are very dull and lower; may be quoted at $1,90 to $2, as to quality. Bran is quiet at $1,40 to $1,50.

CHEESE—Sales of Hamburg at 14 to 15c, and Factory at 15 to 16c.

POTATOES—Continue very dull but unchanged; small sales in store at $1,30 to $1,35 per bushel.

FLOUR—Is dull and neglected, with a drooping tendency. We now quote at $10,25 to $10,75 for Spring Wheat; $11,50 to $12 for Winter Wheat, and $14 to $15 for fancy brands. Winter Wheat, extra, $9,50. Rye Flour, $10.

DRIED FRUIT—Is very dull, with a supply largely in excess of the demand; we continue to quote at 12 to 13c for Peaches, and 6 to 7c for Apples.

GRAIN—Wheat is very dull, and since it has declined considerably and promises to go still lower, it has been discovered, that there is a good many lots held by farmers and small dealers in the country. They would not sell when it was up to $2,75 and $2,80, but they are now glad to get even $2,35 to $2,40, and buyers are not very plenty even at these figures. Oats dull and drooping; sales of about 700 bnsh, on wharf, at 77c, which, as yet, is considered a little below the market. Corn is dull and nominal at $1 to $1,05. Rye has still further declined, and cannot be quoted above $1,50 to $1,55.

LARD OIL—Is quiet and a little; we now quote No. 1 Extra at $1,45, and No. 2 at $1,23 to $1,25.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 9, 1868.

CRUDE—The Crude market was very quiet but firm to-dav, but a single sale reported, and while there is no further advance, holders are very stiff at yesterday's quotations—many of them asking from a quarter to a half more. We now quote spot oil at 12 cts offered, and 12¼ to 12½ asked; sale of 5000 bbls, buyers option, all the year, at 11½, at Oil City, $1,30 per bbl, or $6,500 cash advanced. We heard it rumored that there had been a sale yesterday, buyer's optien, all the year, at 12½, here. Late this afternoon, the advices from the East being not so encouraging, had a tendency to ease up the market, and another point brought to bear by those who are not desirous of seeing any further advance, is that the production is increasing—this we believe is generally conceded. At Oil City, oil was quoted at $1,75 to $1,85, but there were no buyers.

REFINED—The market for bonded oil was considerably excited during the early part of the day, but in the afternoon and towards evening the excitement subsided somewhat, under the influence of adverse reports from Philadelphia. In the forenoon there was a sale of 1,500 bbls each, from July to December, at 32½c; this afternoon, however, it is said, the same months were offered at 32c, without finding takers. June may be quoted nominally at 30½c; July at 31c—all the month; first half of August at 31½c, and last half at 32c. The cable telegrams last night reported Antwerp better and stronger, and the same is true of this and the eastern markets, though, as we have already stated, the feeling this evening was a little weak.

ARRIVALS—The arrivals of oil reported to-day were as follows:

Jas. Wilkins	589	Lockhart & Frew	800

PITTSBURGH WOOL MARKET.

OFFICE OF THE PITTSBUGH GAZETTE, TUESDAY. June 9, 1868.

Small lots of the new clip are beginning to arrive, which are taken by our dealers at 35 to 37 for common Wools, and 37 to 40 for tub washed and medium Wools, and 40 to 45 for fine Wools. There is no demand for fine Wools, and not much disposition to buy this class of Wools unless at low prices. The coarse and medium Wools are in demand at present, but it is thought that when a supply gets forward on the market that low Wools will decline in price.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 9.—A heavy rain storm prevailed all day and trade is stagnant. The market for light styles of Prints is weak and in conformity with the price of Merrimack D, but dark and staple styles are less depressed. Unbleached and bleached muslins are also weak except favorite brands.

Baltimore Market.

[By Telegraph to the Pittsburgh Gazette.]

BALTIMORE, June 9.—Flour nominally unchanged. Wheat dull and unchanged. Corn dull; white $1,12; yellow $1,15. Oats firm; western 90a93c. Rye dull at $1,60. Provisions quiet and firm. Mess Pork $29. Bacon; rib sides 16a16¼c; clear sides 17a17¼c; shoulders 14a14½c. Hams 21a22½c. Lard 18½c.

Memphis Market.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, June 9.—Cotton dull and nominal; receipts, 17 bales; exports, 7 bales. Flour weak, but not quotably lower. Pork $29. Bacon weak; shoulders, 13½c; clear sides, 16½c. Lard, 19a20c. Corn, 86c@$1. Oats, 89a90c. Hay, $18,00a20,00. Bran, 80c. Corn Meal, $4,25a4,50. Potatoes, $4,50 per barrel.

The Pittsburgh Gazette.

Fratricide in Wisconsin.

We referred a few days ago to the murder of Martin Hogan, by his brother, John Hogan, in Manitowoc county. The *Pilot* publishes full details of the horrible tragedy:

The brothers came to the county twelve years ago, and bought 160 acres of land, each owning 80 acres, side by side. After four or five years a dispute arose between the two brothers as to the division of the land, which by mutual criminations, at length grew into the deadly feud which terminated in the tragedy of Thursday last. On that day, in order to settle the dispute, Martin procured the services of a surveyor and proceeded to have the dividing line established. While thus engaged, John Hogan came into the field with an axe upon his shoulder, and accompanied by his wife and another woman. While Martin was stooping down, driving a stake, John approached and struck him several blows in the head with an axe, driving the blade into his brain till the helve rested against his skull. He then started in pursuit of a brother-in-law of Martin, who was assisting, but did not overtake him. He then left, and had not at last accounts been arrested. The murdered brother lingered till Saturday and died. He leaves a wife and three children, and both live upon the farm reserred to. The description of the murderer is as follows: Heighth, 5 feet 8 inches; complexion, dark; weight, 130 or 140 pounds; hair and beard slightly gray.

THE *Vie Parisienne* sings the praises of the short skirt. Woman's wit escapes by the foot; it is her duty then to uncover it.

"Where shall you read the secret thought, the sensation, if I may say so, of a woman? Is it in her eyes, which weep when she pleases? Is it on her forehead, where the least contraction is forbidden? Is it on her cheek, covered over with a triple armor of cold cream, lard and rice-powder? Is it in the movement of her bosom, which the heat or the exercise of the waltz inflates just as much as the liveliest emotion? Is it in her hand, forever gloved, and besides occupied with a bouquet, a fan or a handkerchief? No, it is to the foot we must look; to the foot, which receives all the sensations of this sensitive creature, and reveals them all again. It is no more able to hide a repugnance than a wish or a gratification.

"See it bite the carpet with impatience or draw itself in with disgust, or again, under a pleasant impression, spread itself with the movement of a cat which shows its claws. At a word, at some one's name thrown out, at the coming of this one, at the departure of that one, a tremble runs down all its length and curdles the satin; you think of calm water agitated by a storm. It is a symptom, it is an instruction, it is a command."

THE following curious custom of the Nestorian Christians, as related by the Rev. Arthur Bogian, is commended to the serious attention of the young gentlemen and young ladies of our country who propose to commit matrimony. After the marriage ceremony has been performed, the wedding party is taken in wagons from the church to the house of the bridegroom's parents. When the second wagon, in which the bride is seated alone, reaches the gate opening into the yard in which the house is situated, it is halted, and the bridegroom's mother comes to meet it with a baby and three suits of baby clothes in her arms. She throws the child and the clothes into the arms of the bride, who is required to undress and dress the baby three times in the presence of her mother-in-law, who watches every movement as only a mother-in-law can watch a daughter-in-law. If the newly made bride does not perform the operation to the satisfaction of her severe judge, she is considered unfit for her new position, the wagon is turned around and she is taken back home for further instruction, and the poor bridegroom is compelled to live in single blessedness until his wife is educated up to the praper standard.

A YOUNG clergyman in a New England village recently lost his wife. Soon after the funeral one of the members of his church (a carpenter) severed his relations and joined the Methodists. The bereaved clergyman met him and mildly asked his reasons for the change. "Well," said the carpenter, "the fact is I knew there wasn't much chance of your wife getting well, and so I went to work two or three weeks before she died, so as to have it all ready, and made just the prettiest coffin for her that was ever turned out in this town. I'd took her measure a hundred times sitting right back of the parson's pew, you know. I didn't say nothing about it to you beforehand, 'cause my woman had a notion it would sort 'o cut you up. I don't know why, but when I heard that you'd telegraphed to Boston for one of them new fangled burying concerns, I must say I felt as if I couldn't set under your preaching no longer."

DROWNED PERSONS.—A French physician, Dr. Labordette, claims to have discovered a process for restoring life to drowned persons after an immersion of half an hour or more. Indeed, it is said that it has proved effectual where the patient has been under water as much as six hours. Heretofore fourteen minutes has been considered the extreme limit of time during which the vital spark can be preserved without air, and in most cases five minutes of suffocation is fatal. The process is not fully described in the account given of it in the French papers, but it seems to involve the use of an instrument for opening the windpipe coupled with kneading and rubbing the body.

THE *Revue Brittanique* says about American magazines: "In spite of a good deal of pretentiousness, magazine literature in America is still in its infancy, and it will remain so until the reading public teaches the publishers of magazines that the object of getting a first-class advertising medium should not be considered the most important thing in starting a magazine. In the United States there is now hardly a magazine issued but with a view of being used as an advertising medium by a bookseller. By and by the public will object to this system; but not until then will America get good magazines."

OUR dear sisters of the "Sorosis" have come to grief. Dissensions crept in, and some of the original leaders—the Carys, Miss Kate Field, and a dozen others—have retired and are quietly planning another and more modest organization for the social benefit and art elevation of the clever of the sex. The name, the lunches, the reporting of the proceedings, and Madame Demorest, the milliner, were the stumbling-blocks in the way of the Cary and Field seceders.

A TELEGRAPH line has been constructed on the route from Dover, N. H., to Alton Bay, on Lake Winnepiseogee, the wire of which is composed of about half and half steel and copper, the steel forming the core. The advantages claimed for this wire are superior conducting power, with less weight of metal, a less number of poles on the line, and durability. The city of Boston has ordered this kind of wire for the fire alarm telegraph to Roxbury.

Ladies' Trains.

It is not known where the following manifesto came from, but it is emphatically good:

GENERAL SUPERINTENDENT'S OFFICE, May, 1868.

Rule 1. No train, after this date, will be made up of a greater length than the height of the propelling power.

Rule 2. In coming down heavy grades, (church steps for instance,) first class trains will move as rapidly as safety will allow; but all accommodating trains will proceed slowly and stop frequently to allow people to step on the trains. Caution, however, is necessary in starting up while people are so engaged, to prevent accidents.

Rule 3. All trains to be held up at crossings. All empty "flats standing on the sidings" at the time should be switched off.

Rule 4. When three or more trains are proceeding in company, they should always move side by side, and on no account whatever change this position. Trains approaching from the opposite direction must keep out of the way. [This rule is imperative.]

Rule 5. If it is desirable to attach a "flat" to a moving train, speed should be slackened and signals given by bowing. The "flat" will respond by throwing away its cigar, twirling its mustache, and elevating its hat. The answering signal is a smile, which signifies "couple on;" after "coupling," the combined train will proceed very slowly—very.

By order of FASHION, President.
A LA MODE, General Superintendent.

FALL RIVER, Mass., contains 507,000 spindles, 11,500 looms, and manufactures 114,564,000 yards of cloth, or 64,977 miles, which would encircle the earth two and a half times. The amount of coal consumed is 32,482 tons, 47,990 gallons of oil, and 636,600 pounds of starch. The number of hands employed is 6,759. The pay-rolls of the various corporations amounts to $200,000 per month. The number of spindles in Lowell, Mass., is but 439,138.

IT is understood that the Managers have succeeded in tracing a large sum of money amounting to $200,000 or $250,000, in the hands of certain friends of the administration, raised for the purpose, as some of the witnesses allege, of making wagers on the result of the impeachment trial while others assert that it was subscribed for the purpose of defraying Andrew Johnson's expenses.

TO FARMERS.

THE HAY RAKE "WELCOME."

PATENTED 1865 AND 1867.

Is the best Rake made. It will rake heavier hay, carry it farther, load and unload itself easier than any other rake. It is self-operating; a child 8 years old can do the work of a full hand. Hundreds of certificates could be given, one of which is below:

"GIRARD, Erie Co., Pa., July 5, 1867.

"I have used the *Welcome* Hay Rake, manufactured by W. Wallace, Pittsburgh, Pa., and recommend it to farmers. It is good in light and heavy hay; is easy on man and horse; is a complete *gleaner of grass and stubble*; is simple in construction and easily kept in order.

MISCELLANEOUS.

SECURITY AND COMFORT FOR THE TRAVELING COMMUNITY.

J. B. HARRIS' SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of Stoves and Fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c., wherever pipes as conductors are made dangerous by being overheated and security desired. I will sell, on application, rights to manufacture or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

The Bishop then called for the certificates of other lay deputies, and a number were handed in and referred to the Committee.

Bishop Kerfoot declared the election of Secretary to be next in order.

Capt. Brereton stated that, under the terms of the old Constitution, he was ineligible to re-election, and would, therefore, not be a candidate. He thanked the Convention for the honor that had been conferred upon him.

The Bishop bore testimony to the efficiency and fidelity with which Capt. Brereton had discharged his duties.

Rev. R. J. Coster, Rector of Bishop Bowman's Institute, was then unanimously chosen Secretary.

On motion of Thomas J. Bingham, Esq., a vote of thanks was tendered the retiring Secretary.

Rev. Dr. Caswell, of England, was introduced to the Convention by Bishop Kerfoot.

Rev. Mr. Chase, an Indian, from the Diocese of Huron, in Canada, was next introduced to the Convention, and cordially welcomed.

The following Committees were appointed:

Canons—Rev. J. P. Taylor and Messrs. Burgwin and Golden.

Unfinished Business—Rev. Wm. Wilson and Messrs. Plumer and Bradin.

On motion, adjourned to meet at three o'clock in the afternoon.

AFTERNOON SESSION.

The Convention re-assembled at three o'clock, and was called to order by the Bishop, who opened the exercises with prayer.

On motion of T. J. Bigham, Mr. Caruthers was appointed Assistant Secretary.

The annual address was then read by the Bishop. It was a most able and well written document, giving in detail very interesting statistics connected with the Diocese.

Mr. Benjamin moved that the Constitution of the Diocese be adopted.

A delegate desired to know what would be the effect of an amendment to the Constitution.

The Bishop explained that it would not be policy to amend the Constitution as a whole, but that any article might be amended after the Constitution was adopted.

Mr. Bigham said that he thought it would be best to take up the Constitution section by section, and moved an amendment to that effect.

A delegate from Kittaning thought Mr. Bigham's amendment out of order as the Constitution had been passed upon section by section at the last Convention, and if amended now it would have to lay over another year.

The chair decided the motion in order.

After some further discussion, Mr. Brunot wished to know if the new Constitution be adopted, which requires delegates to the Convention to be communicants, those delegates who were attending the Convention and were not communicants would be required to take their hats and leave the house?

The Bishop said that such would not be the case.

A delegate stated that the matter had been fully discussed at the last Convention, and notwithstanding the ruling of the Chair to the contrary, he thought the motion of Mr. Bigham out of order.

Mr. Bigham rose to a point of order, stating that he hoped the gentleman would not discuss a matter which had been decided by the Chair, unless he would take an appeal from the decision.

The gentleman declined to take an appeal, but said he would ask the Convention to settle the matter in a milder way—that was, by voting down the amendment.

Mr. King thought it would be better to adopt the Constitution, and then limit discussion to such sections as there should be objection to.

Mr. Ten Broeck said that he did not see that the suggestion of the gentleman who had preceded him would simplify the matter, as there was not likely to be discussion upon any section to which there was no objection.

After a lengthy discussion, a vote was taken on the amendment.

The Chair was unable to decide, and a division was called for, which resulted in the defeat of the amendment by a vote of forty ayes to forty-six nays.

The question then recurred on the original motion to adopt the Constitution as a whole.

A delegate desired to know if any portion of the Constitution was altered or omitted if it would defeat the whole.

The Bishop answered the question in the affirmative. He said the Convention must now either adopt or reject the Constitution. They could not omit a single line of it, but they might find sufficient objection to one line to defeat the entire instrument.

The question was called for.

The vote was taken by order, and after the clergy had voted, the vote was announced as follows:

For adoption	34
Against	3

The Bishop announced that each Parish would be entitled to one vote, and ordered the list of Parishes to be called, which was announced as follows:

For adoption	19
Against	8

The Bishop announced that the Constitution had been adopted and was now an organic law of the Diocese.

Mr. Slatterly asked if amendments were in order. If so, he desired to offer an amendment to section 3d of article 3d, which provides that lay delegates to the Convention must be male communicants. His amendment was, "That in Parishes where there were no male communicants, that females be admitted as delegates." He discussed the subject at length, and was interrupted at intervals.

The Chair requested that the motion be reduced to writing, otherwise it could not be entertained.

Pending the time the gentleman was preparing his motion, the Bishop requested the Clergy who have not yet handed in their Parochial letter, to do so at once.

The Secretary then read a communication from the Managers of Dixmont Hospital, inviting the delegates of the Convention to visit the Hospital, stating that the Pittsburgh Fort Wayne & Chicago Railroad Company, had kindly offered to furnish transportotion.

The amendment of Mr. Slatterly was then read.

Mr. King moved to amend the amendment by adding the following words: "Provided that no old women be admitted, and not more than one silly man in forty."

The Chair ruled this amendment out of order.

Mr. Benjamin moved that the amendment of Mr. Slatterly and all other amendments, be postponed until 11 a. m., Wednesday. The motion was adopted.

NOMINATIONS.

Mr. Burgwin moved that the Convention go into the nomination of officers. The motion was adopted.

Mr. Josiah King moved the following nominations and notified the Convention that he would have tickets printed for the candidates nominated by him. He made this statement to prevent the accusation of unfairness, which might otherwise arise:

Finance Committee—Thomas M. Horne, Thomas J. Brenton, Josiah King, E. S. Golden, W. H. Byram.

Standing Committee—Clergy—Rev. Thos. Crumpton, Rev. John Sarborough, Rev. Joseph Taylor. Laymen—John H. Shoenberger, Geo. W. Cass, Hill Burgum, John N. Purviance, J. W. Paul.

Deputies to General Conference—Clergy—Rev. John Scarborough, Marion Byllerly, Richard S. Smith, Wm. White, John D. Spaulding, William Wilson, Dr. Preston. Laymen—John H. Shoenberger, George W. Cass, E. S. Golden, Thomas M. Howe, F. R. Brunot, Hill Burgum, D. D. Vincent;

Supplementary Deputies—Revs. W. P. Ten Brock, Marcus A. Tolman, R. D. Nevins, H. M. Loring. Laymen—Josiah King, Benjamin Grant, Alfred Howell, Gaylord Church.

Treasurers of the Episcopal Fund—Malcolm Hay, Wm. Metcalf.

Treasurer of the Christian Fund—J. H. Hill.

Mr. Golden moved that all the names placed in nomination be printed, which was adopted.

Mr. Burgwin called the attention of the Convention to the invitation from the Managers of Dixmont, which had not yet been acted upon.

On motion, it was resolved to accept the invitation and visit the Hospital Thursday afternoon.

On motion, the Convention adjourned to meet at nine o'clock this morning.

Terrible Explosion.

An agitating tank belonging to the oil refinery of Messrs. Fulton & Marvin, at Arnold's Station, on the Allegheny Valley Railroad, about a mile and a half on this side of Tarentum, in Westmoreland county, exploded on Monday afternoon. The explosion was caused by the pressure of air which was being forced into the tank by means of a fan. A cooper named James Gregg, employed at the works, was killed by the explosion, and Mr. Williams, Superintendent of the refinery, had his knee cap broken by a piece of wood which was violently hurled against him. Mr. Gregg resided at Chartiers, Westmoreland county. The damage done to the works was considerable. It is thought that the distinct report of an explosion heard here about the same time and which so troubled the locals to account for has explanation in this accident.

Attempted Infanticide.

A newly born negro babe was found on the track of the Cleveland and Wheeling Railroad, on Monday morning at Martinsburg. It is presumed that the infant was given birth on the train by a negro girl accompanying a clergyman and his wife, who got aboard at Bellair. This suspicion is strengthened by the fact that she was observed to act in a very mysterious manner, and got off at Martinsburg. The child was thrown on the railway between the rails, and a train of cars passed over it without touching or hurting it. Near it was found some articles of female apparel. The infant was placed in the hands of the Overseers of the Poor, who are now endeavoring to apprehend the mother.

Beautiful, new and stylish Dress Goods, in endless variety, for suits, walking as well evening dresses, will be found at the popular establishment of Bates & Bell, Fifth street. Chintzes, Lawns, Organdies, Poplinettes, silk and wool, plain and barred, and, an endless variety of other popular goods, are exhibited by them; the whole forming the most complete, and the cheapest assortment of fabrics ever shown in this city.

Central Board of Education.

The Central Board of Education met Tuesday evening, June 9th.

Present: Messrs. Aiken, Anderson, Covert, Craig, Getty, Harrison, Mays, Nobbs, Sergeant, Wilson and Brush, President.

The resignation of W. Crawford, jr., as representative from the Fifth ward, was read and accepted.

Mr. Jas. M. Taylor presented credentials as representative from the Fifth ward, *vice* Wm. Crawford, jr., resigned.

On motion of Mr. Getty, the credentials were accepted and Mr. Taylor declared a member of the Board.

The monthly reports of the Principals of the High School and Colored Schools, and of the Secretary, were read and ordered to be received and filed.

The following named gentlemen were elected Collectors:

First Ward—Samuel Patterson.
Sixth Ward—Joseph A. Butler.
Eighth Ward—Thomas Neely.
Ninth Ward—Samuel E. Herron.
Pitt—William B. Evans.

On motion of Mr. Wilson it was Resolved, That the Secretaries of the Ward Boards, and the Principals of the Ward Schools, be requested to have the annual reports of their respective wards completed by the first of July.

On Motion of Mr. Harrison it was Resolved, that a Committe of three be appointed to act in conjunction with the City Superintendent, to devise and have engraved, a blank Professional Certificate suitable for the City of Pittsburgh.

Messrs. Harrison, Covert and Craig were appointed a Committee.

On motion of Mr. Nobbs it was Resolved, That the Committee on High Schools be authorized to confer with the Faculty, on the expediency of incorporating Normal and Commercial departments with the High School, and report at the next meeting.

Mr. Getty moved for the appointment of Music Teachers in the Ward Schools.

On Motion of Mr. Craig, referred to the Committee on Teachers and Salaries.

On motion of Mr. Harrison, the City Superintendent and Secretary were instructed to collate the school laws of the City of Pittsburgh for publication.

The Chair announced that the Committee on Teachers would consist of Messrs. Craig, Taylor and Sergeant.

On motion of Mr. Wilson, a vacation of the city schools was authorized from Friday evening, June 26th, until Monday, August 31st.

On motion, adjourned to meet on the second Tuesday of July, at 3 o'clock P. M.

Attempted Escape of Convicts.

The overcrowded condition of the Western Penitentiary contributes largely towards destroying the active surveillance which formerly marked its management, and numerous preconcerted attempts are made by the prisoners to regain their liberties. The efficient Warden finds his energies constantly taxed to keep down the spirit of insubordination. On Monday night a determined effort was made by three of the prisoners to get clear of the walls which confined them, but the attempt was defeated. The prisoners, it appears, occupied adjoining cells in the lower range of Block A, and for several days have exhibited a spirit of insubordination. The Warden obtained information that an attempt to escape would be made by them. The cell mates of the men had refused to join in the movement, and they were removed to other cells, as the turbulent ones exhibited bad feelings towards them. The parties were watched closely for several days, but they refrained from putting their designs into execution. On Monday night the watchman on duty heard sounds in the cells occupied by the parties, and not knowing how many of the prisoners might be engaged in the movement, he called assistance, and several of the Allegheny night police were also called in. The cells were then opened, and after the prisoners had been secured an examination of the cells were made. A large hole had been cut through the partition walls between two of the cells, thus establishing communication, and considerable progress had been made in cutting through into the third cell. It was the evident intention of the three to get into one cell and make a combined effort to get through the outside wall. As we have stated the design was frustrated, and the parties will be little inclined to make another attempt.

Another Evidence of Skill.

G. M. Woolsey, of Gray's Landing, Pa., a very worthy and respected old gentleman of some fifty years' experience in this world, called at our sanctum yesterday to contribute his certificate to the skill and ability of Dr. E. S. Aborn, the well-known surgeon and physician. Mr. Woolsey has been suffering during the past fourteen years with a painful and annoying tumor on the left arm, and being advised of Dr. Aborn's professional merits, called on him yesterday for treatment. To use the old gentleman's own language, "the tumor was removed in *two seconds* without any pain and no hemorrhage ensuing." This was a skillful and scientific operation, and will take its place in the volume of cures approaching miracles which have marked Dr. Aborn's professional career.

State Medical Convention.—Drs. Gallaher, King, Foster and Mowry left for Harrisburg last evening, to attend the State Medical Convention, which assembles in that city to-day. The Convention is expected to be unusually full and interesting.

Allegheny Temperance League—Third Annual Meeting—Interesting Proceedings.

The third annual meeting of the Allegheny Temperance League was held last night in Rev. Mr. McMillan's church, Allegheny. There was quite a large turn out of the friends of the cause, and the proceedings excited much interest. The Allegheny Quartette Club were in attendance, and was quite an attraction to the occasion by discoursing at intervals between the speeches some of their enlivening songs.

At eight o'clock the meeting was opened by a song from the Quartette Club, composed of Messrs. Horne, Darling, Jackson, and Slack.

Prayer was offered by Rev. McMillan.

Rev. McMillan was chosen Chairman and W. G. Warren, Esq., Secretary.

On motion of Prof. Eaton, Rev. S. F. Crowther, Dr. Hugh Campbell and B. Heckert, Esq., were appointed a Committee on Resolutions.

While the Committee were preparing their report, Rev. A. K. Bell read the report of the Executive Committee for the last year, which was received and filed.

Interesting and instructive addresses now followed, in which Rev. Dr. Pressly, Rev. S. F. Scovel, were the speakers. Rev. Clark, President of the League, having arrived, the chair was vacated in his favor by Rev. McMillan.

The Nominating Committee, through Prof. Eaton, Chairman, reported the following list of officers for the ensuing year:

President—Rev. Elliot E. Swift.

Vice Presidents—Rev. John T. Pressly, D. D., Rev. Thos. Sproull, D. D., Thomas J. Hoskinson, Esq., Rev. E. B. Snyder, Rev. Joseph King, David Blair, Esq., Rev. A. M. Milligan, Rev. John McMillan, Jonathan Gallagher, Esq., Rev. J. W. Baker, Rev. S. F. Crowther, Dr. Hugh Campbell, Rev. A. G. Kirk, Rev. S. F. Scovel and Rev. Joseph R. Kerr.

Corresponding Secretaries—Rev. A. K. Bell, D. D., Rev. J. B. Clark, D. D.

Recording Secretaries—Preston Parker, W. J. Freborn, G. W. Bradley.

Treasurer—Isaac Charles.

Executive Committee—Benjamin Heckert, W. F. Warren, Geo. W. Bradley, T. C. Davis, C. Wattley, M. McGonnigle, L. H. Eaton.

A comic song by tho Quartette Club elicited consideracle merriment by its happy hits, after which Rev. J. S. Lemmon, of Greensburg, delivered an address to the audience.

Mr. Bradley moved that a committee be appointed to nominate a temperance candidate for County Commissioner.

After some debate, in which the motion was opposed by several gentlemen, the motion was adopted, the Chairman, however, forgetting to appoint the committee.

Prof. Eaton announced that the next meeting would take place in Rev. E. P. Swift's Church, Allegheny, at which addresses would be delivered by Mr. Kauffman, of the State Temperance Society, and other distinguished gentlemen.

The Quartette Club gave another musical selection, after which the meeting adjourned with benediction by Rev. J. B. Clark.

Grant and Colfax Club in Birmingham.

A meeting of the Republicans was held in the borough of Birmingham last evening for the purpose of taking steps towards organizing a Grant and Colfax Club, for active service during the coming campaign. Mr. D. C. Ripley was called to the chair, and Mr. Will M. Hartzell selected as Secretary. The meeting was full, many of the leading Republicans being present, and the object of the assemblage fully discussed. A committee—Messrs. M. B. Hartzell and Charles Evans—was appointed to procure a hall for a meeting on Saturday night week, at which time, it is understood, the Club will be organized. On motion, Messrs. E. G. Crehan, John Beech and Will M. Hartzell were appointed a committee to report a plan of organization. It was ordered that the Secretary advertise the meeting of organization of the Clnb in the English and German papers. On motion, adjourned to meet on Saturday evening, 20th inst.

On motion, Messrs. Thos. Atterburg, Chas. Evans, Wm. M'Cully, Henry Meisterfelt and Wm. M'Cutcheon were appointed a committee to suggest an Executive Committee for the borough.

Amusements.

OPERA HOUSE.—La Rue's Carnival Minstrels continue to amuse the public at the Opera House. The $100 in greenbacks were, as usual, distributed last night. Harry Alden, of the Revere House, Fifth street, held the lucky number and received $50.

THEATRE.—The Old Theatre was filled last night and will be so long as the popular manager conducts his business in such a liberal manner. The company is an excellent one, and no lover of fun will regret a visit to the Old Theatre.

BURNELL'S MUSEUM continues to draw large attendances. It is well worth a visit.

Benefit of the Poor.

Under the auspices of the Society of St. Vincent de Paul, (St. Paul's Conference,) there will be held a Grand Charity Pic-Nic, at M'Farland's Grove, on the glorious Fourth of July. Ample arrangements have been made to secure a pleasant and enjoyable day to all who attend, while at the same time they will feel conscious of contributing to the relief of the worthy poor in our midst. We trust the efforts of the members will be generously seconded.

Petition Referred.—We received the following by telegraph last evening: At the session of the Reformed Church Synod yesterday in Hudson, N. Y., a communication from the Reformed Presbyterian Church meeting, of Allegheny City, "asking the recommendation by the Synod of an amendment to the United States Constitution, acknowledging Almighty God as the source of all authority; the Lord Jesus Christ as the ruler among the nations; and the Holy Scriptures as the supreme authority," was read and referred.

False Pretence.—John Williams made information before Alderman Thomas, charging Nicholas Jacobi with obtaining money under false pretence. He alleges that the accused obtained $50 from him, by representing that he was the owner of two lots in Collins township, which he had ascertained was false and and untrue. He was arrested and held to bail for his appearance at Court.

At the Masonic Hall Auction Rooms of Smithson, Vauhook & McClelland, Nos. 55 and 57 Fifth street, will be found at private sale, to-day, a very fine assortment of piece goods and general housekeeping goods, at prices bearing no ratio to the cost of manufacture. For great bargains our readers will call.

The Oil Bubble.—We have received a humorous and sprightly written paper-book entitled the "Oil Bubble," by Samuel P. Irvin, Esq., of Franklin, Pa. It is very interesting, and should be perused by everybody who has dabbled in the oil trade or handled the stocks.

Stock Sale.—The following stocks were sold last evening on the second floor of the Commercial Sales Rooms, 106 Smithfield street, by A. McIlwaine, Auctioneer:

Third National Bank	127.00
Tradesmens National Bank	110.75

The Democratic Convention meets this morning at ten o'clock, at Lafayette Hall, for the purpose of "saving the country," "preserving the Constitution" and setting up a set of candidates to be knocked down in the Fall.

Personal.—Mr. J. L. Marshall, the well known wool merchant, has removed to 191 Liberty street, where he will be glad to see his friends and those having business with him.

Great Cures.

The advance in medical science has nowhere been more thoroughly investigated than in our own city. DEAFNESS, CATARRH, BLIND EYES, FISTULA, the cure of which, until within the past few years, have been regarded as doubtful and uncertain, have yielded in many instances to that skillful system of treatment introduced by Dr. KEYSER, of this city, who has been engaged in the study of medicine and its applicaation in the cure of diseases for over thirty years. The Doctor seems to have an intuitive perception in regard to the application of remedies and will treat all who call on him with that candor and fairness due to so honorable a profession as that of medicine.

A First Class Establishment.

From time to time we have directed the attention of our readers to the plumbing, gas and steam fitting establishment of Thomas T. Ewens, No. 165 Wood street, near Sixth. Mr. Ewens has long held a front rank in his business, and has been favored with a large share of the public patronage. A careful and practical mechanic himself, and devoting his entire attention to the work entrusted to his care, he has ever proven worthy of the public trade. He has on hand in his salesroom a fine assortment of gas fixings, which embrace everything in that line. The stock of pumps, suitable for the country trade, will be found unusually large and well selected, comprising all the improved styles introduced. These Mr. Ewens will erect on the most reasonable terms in any part of the country. He likewise attends to all orders for work in the rural districts in the promptest and most faithful manner. Steam fitting is made a specialty, and all work of this character performed is warranted to prove satisfactory. For any and everything in his way, either in materials or work, we can cheerfully commend Mr. Ewens to our readers.

The manufacture of trunks in this city forms no minor part in the mercantile statistics of the district, and everywhere the superiority of the articles turned out from such well conducted houses as that of Jos. Liebler, No. 104 Wood street, is generally acknowledged. This firm stands high in public estimation, and through careful attention to business, and superiority of workmanship, has succeeded in building up a large trade, which is daily increasing. "Onward, right onward,
Into the valley of Death,
Rode the Six Hundred."

But larger, by hundreds multiplied into millions, than the doomed band who rode to swift destruction, in Tennyson's poem, is the great cavalcade of unhappy men who are rushing to untimely graves, followed by the gaunt spectre Dyspepsia. This is all wrong, and should cease. Plantation Bitters, the great Stomach Pain Killer, cures Dyspepsia, Heartburn, Headache, Vertigo, Dullness, and all symptoms of kindred character, as if by magic. For Languor, Lassitude, Great Weakness and Mental Depression, they have a most wonderful effect.
